

RAHUL NARADALA

Celina, TX | +1 (312) 497-4611 | rahulnaradala59@gmail.com | linkedin.com/in/rahul-n59

PROFESSIONAL SUMMARY

Java Full-Stack Developer with 3 years of experience in building web applications using Java, Spring Boot, and REST APIs. Skilled in React.js, Angular, SQL, MongoDB, and Redis with hands-on expertise in AWS integration and secure authentication.

EDUCATION

Trine University, Angola, USA

Master of Science in Information Science

May 2025

GPA: 3.7/4.0

Mahatma Gandhi Institute of Technology (MGIT), Hyderabad, India

Bachelor of Technology in Electronics and Communication Engineering

August 2022

SKILLS

Programming Languages: Python, Java, C

Frameworks & Tools: Spring Boot, Spring MVC, Hibernate, .NET, Apache Kafka, Kubernetes, Git

Databases: MySQL, MongoDB, Redis

Web Technologies: React.js, Angular, JavaScript, HTML5, CSS3, Bootstrap

Other: AWS S3, AWS SQS, REST APIs, JUnit, OAuth2, JWT

Relevant Courses: OOP in Java, Advanced Databases, Data Science & Big Data, Cloud Computing, Cybersecurity

PROFESSIONAL EXPERIENCE

Starlite Infotech

September 2020 – August 2023

Software Developer

- Collected, cleaned, and analyzed large datasets using **SQL**, **Python** to drive actionable business insights.
- Developed interactive dashboards and visualizations in **Power BI / Tableau**, enabling stakeholders to track KPIs effectively.
- Conducted trend, variance, and predictive analyses to identify opportunities for cost reduction and process optimization.
- Automated recurring data extraction and reporting processes using **SQL** and **Python**, reducing manual effort by 25–30%.
- Collaborated with business teams to define data requirements and translate them into analytical solutions.
- Ensured data accuracy, integrity, and consistency across multiple databases and platforms.
- Assisted in preparing reports and presentations for senior management, highlighting actionable insights and recommendations.
- Collaborated in Agile team environment, contributing to sprint planning, daily standups, and iterative delivery of analytics solutions.
- Collaborated with HR business partners to define data requirements and support workforce analytics initiatives.

ACADEMIC PROJECTS

Intelligent Aerial Surveillance| Data Analysis, Python

May 2025 – August 2025

- Explored and analyzed a dataset of 4,104 aerial images (2,499 drones, 1,605 birds), identifying class imbalances and size distributions.
- Performed data preprocessing and augmentation (resizing, normalization, flipping, cropping) to ensure model-ready inputs.
- Generated performance metrics (accuracy, precision, recall, F1-score, confusion matrices) to evaluate classification models and derive actionable insights.
- Visualized dataset characteristics and model performance trends to support decision-making for aviation safety and wildlife monitoring.
- Provided structured reports summarizing dataset analysis, model comparisons, and recommendations for improving classification reliability.
