SUMMARY

Data Analyst and aspiring Data Scientist with 2+ years of experience as a Project Engineer at Wipro. Skilled in SQL, Python, and Power BI with expertise in database management, data analytics, and visualization. Adept at handling large datasets, automating processes, and deriving insights to drive business decisions. Strong analytical mindset with experience in cloud security, CI/CD pipelines, and data-driven problem-solving.

WORK EXPERIENCE

Project Engineer | Wipro Limited

Oct 2021 - Dec 2023

- Analyzed large datasets using SQL and Python to extract meaningful insights and support business decisions.
- Developed and optimized SQL queries, stored procedures, and views for data manipulation and reporting.
- Created interactive dashboards and reports using Power BI and Tableau to visualize key performance metrics.
- Managed database security, user roles, and access control to ensure data integrity and compliance.
- Automated data processing workflows using Python and SQL, reducing manual effort and improving efficiency.
- Conducted daily monitoring of Disaster Recovery (DR) and High Availability (HA) synchronization with production databases.
- Collaborated with cross-functional teams to identify data-driven solutions for business challenges.
- Assisted in cloud security implementations, managing Git repositories, Kubernetes, and CI/CD pipelines for efficient deployment.
- Conducted root cause analysis and provided long-term fixes for recurring data-related issues.
- Involved in ETL processes, data cleansing, and data transformation for analytics and reporting.

PROJECTS

Farm to Table – E-commerce Platform (Graduation Project)

- Designed a platform connecting farmers with consumers to promote sustainable food systems.
- Integrated data analytics to track consumer preferences, seasonal trends, and supply chain efficiency.
- Implemented security measures, payment gateways, and logistics solutions for smooth transactions.

Audio to PDF Conversion – Minor Project

- Developed a tool to convert audio files into structured PDF documents using Python.
- Utilized speech-to-text processing and formatting techniques for accurate transcription.

EDUCATION

Master of Science , Computer Science

Jan 2024 – Present

Florida Atlantic University, Boca Raton, FL

- CGPA: 3.5

Bachelor of Technology, Computer Science & Engineering

Aug 2017 – Jul 2021

Sri Krishnadevaraya University, India

- GPA: 7.8

ADDITIONAL INFORMATION

Skills:

- Programming Languages: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL
- Databases: Oracle, Microsoft SQL Server
- Data Visualization & BI: Power BI, Tableau
- Cloud & DevOps: Kubernetes, CI/CD Pipeline, Git Repository
- Microsoft Office Suite: Excel, Word, PowerPoint
- ETL & Data Pipelines: Data Integration, Data Cleaning, Query Optimization, Data Modeling

Certifications:

- Data Science & Business Analytics – Beast Technologies
- Python Programming (InfyTQ Certification) – MITS
- Power BI & Tableau for Business Analytics – Online Certification
- MS Office Certification – Recognized by MSCIS

Awards & Activities:

- 2nd Prize in AI Competition – Sanskrathi School of Engineering Fest
- Wipro Internal Awards – Recognized for performance in data-driven projects
- Organizer for Tech Fests (FUZON 2K20 & 2K21) – Led event planning & marketing initiatives

Additional Skills

- Strong problem-solving and analytical skills
- Excellent communication and teamwork
- Ability to work in high-pressure, data-driven environments
