EDUCATION

The University of Texas at Dallas, TX

Master of Science, Information Technology & Management

May 2025

GPA:3.7

PVP Siddhartha Institute of Technology, India

Bachelor of Science, Electronics & Communication Engineering

Jul 2021

GPA:3.5

TECHNICAL SKILLS

Programming Languages – C, C++, Python, SQL, Java | **Big Data Ecosystem** - HDFS, Spark, Kafka, Hive, Airflow, Sqoop | **Databases** - MySQL, MS SQL Server, PostgreSQL, Snowflake, DynamoDB | **Cloud Environment** - Amazon Web Services (AWS), Microsoft Azure, GCP Big Query | **AWS** - EC2, EMR, S3, Redshift, Lambda, Glue, Lake Formation, IAM, CloudWatch | **Reporting/ETL Tools** - AWS Glue, Athena, SSIS, Informatica, Talend, Tableau, Quick Sight, Power BI, Airflow

PROFESSIONAL EXPERIENCE

Data Engineer - Infosys, India

Jun 2021 – Aug 2023

- Built PySpark workflows on AWS EMR to process 50M+ records; loaded transformed data into Redshift for analytics.
- Released Flask APIs on EC2 and orchestrated dependencies in Airflow, cutting dashboard latency by 40% and maintaining 99.9% uptime.
- Designed AWS Glue pipelines with schema validation and S3 partitioning to enable near real-time data access.
- Partnered with data scientists in SageMaker to streamline feature engineering, improving model iteration cycles by 25%.
- Conducted POCs with Databricks and Delta Lake, achieving 35% faster data refresh rates across datasets.

Data Engineer Intern - E-Soft Solutions, India

May 2019 – Mar 2021

- Developed Spark and Hive pipelines to ingest data from 10+ financial APIs, storing outputs in HDFS and PostgreSQL.
- Engineered Kafka streaming prototypes to detect user activity anomalies within 1-minute intervals.
- Created REST APIs with token authentication for BI tools, reducing report generation time by 50%.
- Automated data profiling via Python scripts, improving onboarding success by 30%.
- Deployed Spring Boot microservices in Docker for scalable rule-based data transformations.

ACADEMIC PROJECT EXPERIENCE

My Happy School

Jan 2025 – May 2025

- Created 10+ modular UI components with React, TypeScript, and Tailwind for platform features.
- Developed 10+ modular UI components using React, TypeScript, and Tailwind; ensured full responsiveness across 5 screen sizes.
- Implemented light/dark mode toggling, increasing usability ratings by 30% in peer evaluations.
- Configured Vite to reduce dev load time by 60% and improved form validation coverage for 15+ fields.

Risk Factor Analysis | Big Data

Oct 2024 - Dec 2024

- Loaded 2M+ accident records into Hive via Sqoop for scalable querying with Impala.
- Designed 5 Tableau dashboards analyzing risk patterns by age, region, and time.
- Integrated RServe with Tableau to run regression models achieving 78% R² accuracy.

Ad Analytics | Python

Nov 2023 - Dec 2023

- Cleaned 12K ad records by resolving 500+ duplicates and standardizing formatting.
- Visualized trends using 20+ plots to identify top 10 ad types by CTR and cost efficiency.

CERTIFICATIONS

- AWS Cloud Solutions Architect- Associate
- IBM Data Engineer
- Salesforce Certified Administrator
- Google Badge: Generative AI
