

NAINA GUPTA

Boston, MA | (857) 832-1350 | naina.gupta2025@gmail.com | [LinkedIn](#) | [GitHub](#)

Experienced data professional with a proven record of extracting actionable insights from complex datasets to drive business growth and applying statistical methods to real world problems for providing scalable analytical solutions.

WORK EXPERIENCE

Data Analytics Intern, KARA Group

Jul 2024 – Present

- Automated program data collection and integration, from multiple sources using SQL querying, significantly reducing processing time by 80% and enabling the development of a unified dataset for streamlined analysis
- Designed Power BI dashboards to visualize key metrics on child welfare programs, convincing leadership to identify service gaps and optimize resource allocation, resulting in a 15% increase in program engagement
- Led predictive modeling efforts to identify key factors which increased participation in counseling and financial literacy programs by 25%, and enhanced emotional and financial support for abused and neglected children

Data Analyst, ABC Info Soft

Jun 2020 - Jul 2022

- Analyzed ERP usage patterns for 500+ clients across diverse industries, identifying process inefficiencies and recommending workflow optimizations that increased user productivity by 15%, leading to faster project delivery
- Managed end-to-end dashboard development projects, from data cleaning to testing and validation, improving decision-making time by 20% reduction in processing time and enhanced data accessibility for stakeholders
- Created interactive Power BI dashboards to track Key Performance Indicators (KPIs), boosting visibility into inventory turnover and project timelines, driving a 20% rise in operational efficiency and strategic decisions

Data Analyst, InvestoXpert Advisors

Jun 2019 - May 2020

- Transformed property data using Python and SQL to identify preference patterns, implementing data-driven CRM strategies for targeted communication, increasing client satisfaction by 25%, leading to higher retention rates
- Restructured KPIs and built automated data pipelines in Power BI using DAX and Power Query, providing real-time insights into pricing patterns that enhanced cost precision by 20% and expedited new property launches
- Designed and optimized Tableau dashboards to deliver real-time market trend insights, empowering stakeholders to make data-backed decisions that drove a 15% increase in revenue and enhanced KPI accuracy by 20%

ACADEMIC PROJECTS

Sentiment Analysis & Predictive Modeling, Cloudport Inc. (Tableau, Python)

Jan 2024 – Apr 2024

- Independently conducted sentiment analysis on 10+ years of CNN data, using interactive Tableau dashboards, improving sentiment understanding by 20%, aiding media decision-making and news curation strategies.
- Contributed to the team's goal of using NLTK for text preprocessing and Text Blob for sentiment analysis to build 7 predictive models, achieving 92% accuracy in forecasting public sentiment trends through interactive testing

Traumatic Brain Injury Healthcare Analysis, Power of Patients (Tableau, SQL, R)

Apr 2023 – Jun 2023

- Streamlined processing of 50,000+ patient records, integrating data from multiple source files into a relational database and boosting data management efficiency for stakeholders by reducing inconsistencies by 30%
- Collaborated with the team to develop a Random Forest model with 91.28% accuracy in predicting patient genders and customized Tableau dashboards to uncover healthcare correlations for strategic decision-making

SKILLS

Programming Language: SQL (T-SQL, PL/SQL), Python (NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch, NLTK), R

Technology: Jupyter Labs, MySQL, SQL Server, Oracle SQL, RStudio MS Office, Microsoft 365 Suite, Power Automate, Power BI (Apps & Workspace, Row-Level Security), Dataverse, Azure, AWS

Data Visualization Tools: Microsoft Power BI, Tableau, Matplotlib, Seaborn, Plotly

Microsoft Certified: Power BI Data Analyst Associate PL-300 (Earned: [Feb 2025])

EDUCATION

M.S. Data Analytics, Northeastern University

Sep 2022 – Apr 2024

Coursework: Statistical Modeling, Data Analysis & Visualization, Data Warehousing, Predictive Modeling

GPA: 3.9/4

M.S. Economics and Finance, Amity University

Jul 2014 - Jul 2016

GPA: 8.76/10

B.A. (Hons) Economics and Statistics, University of Delhi

Jul 2011 - Jul 2014

GPA: 4.1/5
