

Detail-oriented and analytical professional with a strong foundation in data management, reporting, and systems analysis. Experienced in working with large datasets, HRIS/EMR systems, CRM ticketing platforms, and Microsoft Excel (PivotTables, VLOOKUP) to drive insights and maintain data accuracy. Skilled in troubleshooting, documenting workflows, and improving operational processes with a focus on accuracy and integrity. Currently building advanced skills in SQL, data analysis, and information security, with hands-on experience supporting technical operations in remote environments.

Employment history

Licensed Insurance Agent / Technical Support Specialist, TTEC, Present

Remote

- Analyzed customer system behavior and performance dashboards to identify trends, errors, and recurring technical issues.
- Documented tickets in Salesforce with detailed notes and data points, ensuring accurate reporting and analysis.
- Interpreted system logs, connectivity data, and configuration details to support issue diagnosis.
- Provided real-time troubleshooting across Windows/macOS, VPN, and cloud software environments.
- Escalated system incidents using data-driven assessments by monitoring alerts and application metrics.
- Utilized data analysis to enhance customer service protocols, leading to measurable improvements in response times and client satisfaction.
- Developed comprehensive documentation processes within Salesforce, significantly improving ticket resolution accuracy and operational efficiency.
- Partnered with IT teams to troubleshoot and resolve system issues, fostering a shared responsibility for service quality and reducing downtime.

Director of Resident Services, Lorien Health Services

Frederick, MD

- Maintained 100% data accuracy across digital HRIS and EMR systems through consistent audits and validation.
- Created Excel dashboards and reports using PivotTables, VLOOKUP, and formulas to track resident incidents, staffing data, and service metrics.
- Managed digital records and improved workflows by standardizing documentation processes.
- Supported system access setup, permissions troubleshooting, and data updates for new staff onboarding.
- Collaborated with IT on data-related system issues, ensuring compliance and integrity.

Social Work Assistant, Lorien Health Services

Frederick, MD

- Conducted compliance-driven data audits within EMR platforms to ensure clean, accurate records.
- Cleaned and validated resident data for reporting and regulatory usage.
- Assisted teams with system access issues and workflow troubleshooting using data review and root-cause steps.
- Improved internal reporting by organizing and updating digital documentation and QA checks.
