

Namratha Golla

ServiceNow Developer – ITSM | ITOM |

Phone: 9132631145 | Email: namratha1402@gmail.com

SUMMARY:

- Analytical and results-driven professional with **5 years of experience** in business intelligence, data analytics, and strategic problem-solving.
- Expertise in developing **interactive dashboards and visualization tools** using **Tableau, Power BI, Alteryx, and Excel**.
- Strong hands-on skills in **data manipulation, cleaning, and transformation** using **SQL, Python, and R**.
- Proven ability to **translate complex data into clear, actionable business strategies** and executive-level reports.
- Experience designing and refining **data-driven frameworks and scalable analytical processes**.
- In-depth understanding of **business systems and processes** across marketing, customer research, and operations.
- Demonstrated success in **cross-functional collaboration**, working closely with strategy, product, and operations teams.
- Skilled in **statistical analysis, forecasting, and trend modeling** to support data-backed decision-making.
- Strong presentation and storytelling abilities — adept at turning data insights into **compelling visual narratives**.
- Curious, creative, and analytical mindset with a passion for **continuous learning and innovation** in data strategy.

TECHNICAL SKILLS:

Data Analytics	Python, R, SQL, Tableau, Power BI, Alteryx, Excel, Google BigQuery, SQL Server, Data Visualization, Statistical Analysis, ETL Processes, Machine Learning (Basics), Business Intelligence, and Data-Driven Decision Making.
Platforms	SQL Server, MySQL, Google BigQuery, Snowflake, PostgreSQL, Google Cloud Platform (GCP), Microsoft Azure (basic familiarity)
Tools	Tableau, Power BI, Alteryx, Excel (Advanced), Google Sheets, Microsoft Access, Jupyter Notebook, Visual Studio Code, Git/GitHub for version control
Languages	Python (pandas, NumPy, matplotlib, seaborn, scikit-learn), R (dplyr, ggplot2, tidyverse), SQL (data extraction, joins, transformations, stored procedures)
Methodologies	Data-driven decision-making, ETL (Extract, Transform, Load) workflows, Agile & Scrum methodologies, A/B testing and experimental design, KPI tracking and business performance analytics.
Other	Flow Designer, Integration Hub, Service Catalog, Performance Analytics, Test Management

EDUCATION:

- Bachelors in Electrical and Electronics, India

Certifications

- ServiceNow Certified System Administrator (CSA)
- Certified Application Developer (CAD)

PROFESSIONAL EXPERIENCE:

M & T Bank - Buffalo, NY

Mar 2025 – Present

Data Analyst

- Collected, analyzed, and interpreted large financial and operational datasets to support data-driven business decisions.
- Designed and developed interactive dashboards and reports using Power BI, Tableau, and Excel for senior leadership.
- Utilized SQL and Python for data cleaning, transformation, and trend analysis across multiple business systems.
- Collaborated with cross-functional teams to identify key performance indicators (KPIs) and automate reporting workflows.
- Conducted data validation and quality assurance to ensure accuracy and compliance with regulatory standards.
- Partnered with business units to translate complex analytical findings into strategic insights for process improvement.
- Supported forecasting and risk analysis models using statistical techniques and regression methods.
- Assisted in ETL development and maintenance of data pipelines for efficient data integration.
- Delivered ad hoc analysis and visual reports to track marketing, operations, and customer performance metrics.
- Contributed to data governance initiatives, ensuring data integrity, security, and standardization across platforms.

HealthStream, Nashville, TN

Jun 2024 – Feb 2025

Data Analyst

- Analyzed healthcare training, compliance, and workforce performance data to identify trends improving employee learning outcomes.
- Collaborated with product, clinical, and customer success teams to drive data-informed improvements in HealthStream's e-learning platforms.
- Utilized Python, SQL, and Power BI to build automated dashboards tracking user engagement, course completion, and satisfaction metrics.
- Integrated and transformed large-scale healthcare datasets from multiple systems, ensuring HIPAA compliance and data security.
- Conducted root-cause analysis to identify operational bottlenecks and optimize process efficiency for healthcare clients.
- Developed predictive models to forecast learner performance and retention within hospital training programs.
- Partnered with data engineers to enhance ETL pipelines and improve the accuracy and timeliness of analytics delivery.
- Created data dictionaries and documentation to standardize reporting processes and improve data governance.
- Presented analytical insights to clinical leaders and executive teams, influencing key strategic and compliance decisions.
- Supported A/B testing initiatives for new platform features, measuring their impact on user engagement and learning effectiveness.

IBM – India

May 2020 to Nov 2023

Data Analyst

- Partnered with global clients to deliver data-driven business solutions using IBM's analytics and cloud technologies.
- Leveraged IBM Cognos Analytics, SQL, and Python to design end-to-end reporting systems supporting strategic decision-making.
- Collaborated with data engineers to implement data warehousing solutions on IBM Cloud and Azure platforms.
- Applied AI and machine learning models to uncover insights from unstructured enterprise data, improving predictive accuracy.
- Automated data pipelines and ETL workflows, reducing manual reporting time by over 40%.
- Conducted advanced statistical analysis to evaluate business performance and recommend optimization strategies.
- Created interactive dashboards and executive reports highlighting key trends in operations, finance, and customer engagement.
- Supported data migration and integration projects, ensuring accuracy and consistency across global business units.
- Utilized data visualization and storytelling techniques to communicate findings to senior stakeholders and technical teams.
