SUMMARY:

Highly skilled Java Full Stack Developer with 3+ years of experience in designing, developing, and deploying scalable and efficient web applications. Proficient in both frontend and backend technologies, including Java, Spring Boot, Hibernate, Angular, and React.js. Strong expertise in building RESTful web services and microservices-based architectures. Experienced in database management with MySQL, PostgreSQL, and MongoDB. Skilled in Agile development, CI/CD pipelines, and version control tools like Git and GitHub. Adept at collaborating with cross-functional teams to deliver high-quality solutions while ensuring security, scalability, and performance. Passionate about continuous learning and staying up-to-date with the latest industry trends and technologies.

SKILLS:

- **Programming Languages:** Java, SQL, PL/SQL, JavaScript
- **Scripting Languages:** HTML, CSS, JavaScript (ES6+), jQuery, JSON, Node.js, Bootstrap
- **Backend Technologies:** Java SE, Spring Boot, Hibernate, Spring (Core, MVC, DAO, JPA), Microservices architecture, ORM Frameworks (Hibernate, Spring JPA)
- **Frontend Technologies:** Angular, React.js, HTML5, CSS3, JavaScript (ES6+), Bootstrap
- **Web Services:** RESTful Web Services, JAX-RS, Microservices
- **Databases:** MySQL, PostgreSQL, MongoDB, Oracle
- **Testing Tools:** JUnit, Selenium WebDriver, TestNG, Mockito
- **Version Control Systems:** Git, GitHub, Bitbucket, SVN
- **DevOps & CI/CD Tools:** Jenkins (CI/CD pipeline), Maven
- **Frameworks:** Spring (Core, MVC, DAO, JPA), Hibernate
- **Application Servers:** Apache Tomcat, JBoss
- **Design Methodologies:** Agile, TDD (Test-Driven Development)
- **Operating Systems:** Windows, Linux
- **IDE Tools:** Eclipse, IntelliJ IDEA, Visual Studio Code, NetBeans

EXPERIENCE:

Goldman Sachs Global

Jan 2024 to Present

Java Full Stack Developer

- Designed and developed scalable, high-performance web applications using React.js and Spring Boot, improving user experience and system efficiency by 35%.
- Implemented RESTful APIs using Spring Boot, optimizing backend services and reducing response times by 30%.
- Developed and fine-tuned complex SQL queries, stored procedures, and triggers in Oracle PL/SQL, leading to a 20% improvement in database efficiency.
- Architected and maintained microservices-based solutions with Spring Boot, ensuring high availability and scalability.
- Integrated front-end components with Spring Boot APIs, improving data flow and system reliability by 40%.
- Enhanced security measures by implementing JWT authentication, OAuth 2.0, and Spring Security, reducing security vulnerabilities by 50%.
- Led a team of 4 developers in Agile sprints, maintaining a 100% on-time feature release rate.
- Increased test coverage by 40% through JUnit, Mockito, and React Testing Library, ensuring stability and maintainability.
- Implemented CI/CD pipelines using Jenkins and GitHub Actions, reducing deployment time by 50% and streamlining software releases.

Coforge

Jul 2020 to Aug 2022

Java Full Stack Developer

- Developed 15+ enterprise applications using Angular and Spring Boot, enhancing UI responsiveness by 30% and system scalability.
- Designed RESTful APIs with Spring Boot, improving API response time by 25% and ensuring seamless backend connectivity.
- Created and optimized MongoDB schemas and indexing strategies, reducing query execution time by 40%.
- Implemented microservices architecture with Spring Boot, increasing modularity and reducing system downtime by 20%.
- Enhanced authentication mechanisms using Spring Security and JWT, improving access control and reducing security risks.
- Automated UI testing using Selenium, Jasmine, and Karma, leading to a 35% improvement in test efficiency.
- Led sprint planning and backlog refinement, achieving a 95% sprint completion rate through Agile methodologies.
- Developed reusable Angular components, reducing front-end development time by 50% and improving maintainability.
- Optimized application performance by minimizing unnecessary API calls, resulting in a 20% increase in system efficiency.

EDUCATION:

- **Masters in Computer Science**
Wichita State University
- **Bachelors in Computer Science**
AVN Institute of Engineering and Technology, Hyderabad, India
