Professional Summary

Data Analyst with 7+ years of experience in SQL, Python, and BI reporting across healthcare and financial domains. Skilled at collecting, cleaning, and analyzing large datasets to deliver actionable insights that drive business decisions. Proficient in building dashboards with Power BI and Tableau, writing optimized SQL queries, and presenting results to both technical and non-technical stakeholders. Strong background in regulatory compliance (HIPAA, SOX, GDPR) and experienced in cloud-based data environments (Azure, AWS, GCP).

Technical Skills

- **Databases:** SQL Server, Oracle, PostgreSQL, Teradata, Snowflake
- **Programming & Analysis:** SQL, T-SQL, PL/SQL, Python (Pandas, NumPy), R (basic), Excel (Advanced)
- **Data Handling:** Data Cleaning, Data Transformation, Data Validation, Data Modeling (Star/Snowflake schemas)
- **Visualization Tools:** Power BI, Tableau, SSRS, OBIEE, Oracle Analytics Server, Crystal Reports
- **Cloud Platforms :** Azure (ADF, Synapse, Databricks), AWS (S3, Glue, Redshift), GCP (BigQuery, DataFlow)
- **ETL Tools:** SSIS, Informatica (basic), Azure Data Factory
- **Other Tools:** Git, Azure DevOps, Bitbucket, SVN, TFS

Professional Experience

CoreLogic – TX

SQL Developer / Data Analyst | Aug 2022 – Present

- Collected and validated datasets from SQL Server, Oracle, flat files, and cloud sources, ensuring accuracy and consistency.
- Performed data cleaning and preprocessing using SQL and Python, improving data quality for business analysis.
- Built interactive Power BI dashboards integrating Azure SQL and Data Lake, delivering insights to product managers and business leaders.
- Conducted exploratory data analysis (EDA) to identify trends in customer and claims data, presenting findings to cross-functional teams.
- Developed ad-hoc reports for compliance and finance teams, reducing manual reporting time by 30%.
- Documented workflows, data dictionaries, and business logic to ensure transparency and reproducibility of analyses.

Anthem Inc – VA

Data Analyst / BI Specialist | Jan 2022 – Jul 2022

- Designed and implemented ETL workflows in SSIS and Informatica to collect, transform, and load data from SQL Server, Oracle, and flat files.
- Developed Tableau dashboards and SSRS reports to track claims volume, provider utilization, and member coverage.
- Partnered with actuaries and compliance teams to perform root cause analysis on healthcare

reporting metrics.

- Built SQL queries and Python scripts for data validation, cleansing, and ad-hoc analysis, improving report accuracy.
- Prepared executive summaries and visual reports, simplifying complex data findings for non-technical stakeholders.

UnitedHealth Group – Hyderabad, India

SQL Developer / Data Analyst | Dec 2019 – Jun 2021

- Collected, cleaned, and transformed FACETS healthcare data using SQL Server and SSIS.
- Created parameterized SSRS and Tableau dashboards for actuarial and compliance reporting.
- Performed data validation checks and built reconciliation reports to ensure HIPAA-compliant data pipelines.
- Conducted ad-hoc data analysis requests for business users, ensuring timely delivery under strict deadlines.
- Collaborated with business analysts to define reporting requirements and translate them into technical specifications.

Amedha Info Systems – Hyderabad, India

SQL BI Developer / Analyst | Apr 2017 – Nov 2019

- Designed and developed SSIS packages to integrate data from multiple sources (Oracle, Access, Excel, Flat Files).
- Built Tableau and Crystal Reports to provide dashboards and KPI tracking for business stakeholders.
- Conducted exploratory analysis of customer and financial datasets to identify patterns and improve reporting accuracy.
- Partnered with business teams to produce customized reports and visualizations for decision-making.

Education

- Master of Science in Computer Science – Fitchburg State University, MA
- Bachelor of Technology in Computer Science – JNTU, Hyderabad, India

Key Highlights

- Strong SQL and Python background for data cleaning, transformation, and analytics.
- Proficient in Power BI and Tableau for building interactive dashboards and executive reports.
- Experienced in healthcare and finance domain reporting with regulatory compliance focus.
- Skilled in collaborating with cross-functional teams and communicating insights effectively.
- Familiar with cloud-based data platforms (Azure, AWS, GCP) and ETL frameworks.
