Summary

Detail-oriented Data Analyst with strong skills in SQL, Python, and Power BI. Experienced in analyzing large datasets, building dashboards, and delivering actionable insights to support business decisions. Certified in SQL and Power BI with a solid foundation in data analytics and reporting.

Education

New Jersey Institute of Technology (Ying Wu College of Computing, Newark) **Sept 2024 – May 2026**

Masters in Computer and Information Science

Newark, New Jersey

Relevant Coursework: Data Analytics with R Programming, Data Management System Design, Operating System Design, Data Structures & Algorithms, Introduction to Big Data, Web Systems Development.

Gujarat Technological University (SCET)

Jul. 2020 – Jun 2024

Bachelor of Engineering, Information Technology, CGPA: 8.62/10

Surat, Gujarat

Relevant Coursework: Big data analytics, Pattern recognition, Operating system and virtualization, Database management system, Object-oriented programming, Probability and Statistics, Data Structures, Computer Networks, Advanced Web Programming.

Technical Skills

Programming Languages: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL, R, Java, JavaScript, C++

Tools: Power BI, Tableau, Excel, Git, Node.js, Express.js, MongoDB, MySQL

Soft Skills: Analytical Thinking, Problem Solving, Communication, Collaboration

Experience

VRUTTI TECHNOLOGIES PVT.LTD

Jan 2024 – Apr 2024

Data Analytics Intern

Surat, Gujarat

- Collected, cleaned, and analyzed datasets using Python and Pandas, improving data accuracy by 30%.
- Created dashboards in Power BI to communicate insights and performance metrics to internal stakeholders.
- Used DAX and Python to automate report generation and reduce manual processing time.
- Collaborated with cross-functional teams to gather data needs and support decision-making with clear visualizations.

CODE EXPERT SOLUTIONS

Jul 2023 – Aug 2023

Web Developer Intern

Surat, Gujarat

- Enhanced project features based on requirements, leading to a increase in website functionality.
- Developed and managed a dynamic website using HTML, CSS, and JavaScript, resulting in a 25% boost in user engagement.

Projects

Airline Passenger Sentiment Analysis | *Python, Pandas, NumPy, Matplotlib, Seaborn*

Jan 2024 – Apr 2024

- Analyzed global airline review data (2016–2019) to identify key factors influencing passenger referral likelihood, focusing on variables like seat comfort, cabin service, travel class, and in-flight entertainment.
- Recommended service improvements with potential to increase customer satisfaction by up to 20%, addressing low-rated areas like in-flight entertainment.

Enhancing Manufacturing Efficiency Through Data-Driven Insights | *Power BI, DAX, Excel* **Oct 2023 – Nov 2023**

- Conducted data cleansing, and analysis of manufacturing and employee datasets, identifying trends that improved production efficiency by 20%.
- Built an interactive Power BI dashboard to visualize key metrics, enhancing resource allocation accuracy and supporting data-driven decision-making.

Certifications

Complete Guide to SQL for Data Engineering: from Beginner to Advanced

Jul 2025

- Skills: Advanced SQL queries, data modeling, ETL processes, query optimization for large-scale data pipelines.

Complete Guide to Power BI for Data Analysts by Microsoft Press

Apr 2025

- Skills: Data visualization, DAX functions, interactive dashboards, Power BI service deployment for business reporting.
