OBJECTIVE

Analytically driven and detail-oriented data professional with expertise in statistical analysis, data visualization, data management, and institutional reporting. Seeking a challenging position to leverage my skills in driving data-informed decision-making and process improvement.

SKILLS & EXPERTISE

- **Statistical Analysis:** Proficient in R, Python, SAS, and advanced statistical methodologies.
- **Data Visualization & Reporting:** Skilled in leveraging programming tools such as SQL, SAS, R, and Excel for institutional reporting, ensuring compliance and accuracy. Experienced in using Tableau for dashboard creation to support institutional decision-making and effectiveness. Currently serving as IPEDS keyholder, managing critical regulatory data submissions.
- **Survey & Data Collection Tools:** Skilled in Qualtrics and survey administration.
- **Database Management:** Proficient in MS SQL Server, with experience in report writing, data cleansing and validation.
- **ERP Systems:** Skilled in working with Jenzabar and related higher education platforms.
- **Collaboration & Leadership:** Proven ability to work cross-functionally and independently in support of institutional initiatives.
- Root cause analysis and data quality improvement strategies
- **Critical Thinking:** Strong analytical, problem-solving, and communication skills, with a focus on process improvement and data-informed decision-making.
- **Project Management & Multitasking:** Proven ability to manage multiple projects with tight, conflicting deadlines with a strong focus on accuracy and reliability.

PROFESSIONAL EXPERIENCE

Data Analyst

September 2022 – Present

Cecil College, North East, MD

- Lead preparation, validation, and submission of compliance reports including IPEDS and MHEC in accordance with institutional, state, and federal reporting requirements
- Develop and maintain automated data pipelines and validation scripts using SQL and Excel VBA to improve reporting efficiency and data accuracy
- Perform root cause analysis to identify and resolve data quality issues across student

information systems, contributing to a 40 percent improvement in data integrity

- Conduct data cleaning, transformation, and manipulation for analysis and reporting using SQL and Excel
- Design and produce trend analysis reports and Tableau dashboards focused on enrollment, retention, and student success metrics
- Document reporting standards and data governance protocols to ensure consistency, auditability, and compliance
- Collaborate with IT, Records and Registration and academic departments to improve data management processes and optimize reporting workflows
- Administer institutional surveys using Qualtrics including survey design, distribution, and response analysis
- Maintain and support reporting tools such as Info Maker to generate internal and external reports for stakeholders
- Mentor junior analysts in technical tools, data best practices, and reporting procedures
- Ensure compliance with institutional data security standards and classification policies

Graduate Teaching Assistant

August 2019 - May 2021

Mississippi State University, Starkville, MS

- Conducted tutorials/recitation sessions for undergraduate students.
- Helped students one on one with their assignments and proctor during examinations.
- Graded of assignments, quizzes, and tests.
- Held office hours to discuss the academic and course needs of students.

Research Analyst

September 2018 - July 2019

Kwame Nkrumah University of Science and Technology, Ghana

- Utilized R software to perform statistical analysis, predictive modeling, and data visualization to support decision-making processes
- Created various visualizations, using R and Tableau to highlight trends and patterns.
- Facilitated learning and improved performance by tutoring undergraduate students individually and in small groups for specific courses.

EDUCATION

MSc in Statistics

Mississippi State University, Mississippi State. *April 2021*

BSc in Actuarial Science

Kwame Nkrumah University of Science & Technology, Ghana *June 2018*
