

SUMMARY

Business Analyst with over **5+ years** of experience in **business analysis**, **data analytics**, and **process optimization**, supporting **large-scale initiatives** across **diverse industries**. Proficient in **SQL**, **Python**, **Tableau**, **Power BI**, and **Alteryx** for turning **complex datasets** into **actionable insights**, **executive dashboards**, and **predictive reporting**. Skilled in writing **BRDs**, **FSDs**, and **user stories**, **managing requirements** in **Agile environments**, and **coordinating UAT** to ensure **system reliability** and **compliance**. Experienced in **risk analysis**, **fraud monitoring**, and **cash flow optimization**, while also **driving CRM**, **ERP**, and **AWS-based system improvements**. Recognized for **partnering** with **cross-functional teams** and **leadership** to **streamline operations**, **reduce manual effort**, and enable **data-driven decision-making**.

SKILLS

Business Analysis & Documentation: Business Requirements Documents (BRD), Functional Specifications (FSD), User Stories, Acceptance Criteria, Agile/Scrum, Gap Analysis, Workflow Mapping, UAT Planning & Execution, Stakeholder Management
Data Analysis & Reporting: SQL (Joins, Stored Procedures, Data Validation), Python (Pandas, NumPy, Exploratory Analysis), Advanced Excel (Pivot Tables, Macros), Trend Analysis, KPI Tracking, Root Cause Analysis
Business Intelligence & Visualization: Tableau (Executive Dashboards, KPI Tracking), Power BI (DAX, Power Query, Data Modeling), Alteryx (ETL, Reporting Automation), Data Storytelling, Real-Time Dashboards
Financial Services & Risk Management: Credit & Loan Performance Analysis, Fraud Detection, Compliance & Audit Reporting, Operational Risk Controls, Cash Flow and Working Capital Analysis
Systems & Platforms: CRM & ERP (Salesforce, SAP, Oracle ERP), AWS (Cloud Migration, UAT, System Validation), JIRA, Confluence, MS Visio, MS Office Suite
Operations & Process Improvement: Supply Chain Analysis, Manufacturing Operations, Order-to-Cash Process, Cycle Time Reduction, Performance Monitoring (Inventory Turnover, Delivery Accuracy, Resolution Times), Process Automation

PROFESSIONAL EXPERIENCE

Business Analyst Capital One Finance WI, USA	Dec 2024 – Present
- Analyze financial and customer datasets using SQL and Python, identifying trends in credit usage, payment behavior, and loan performance to support decisions in credit cards, auto finance, and retail banking. - Collaborate with product managers, engineers, and designers in Agile sprints to translate business needs into user stories, define acceptance criteria, and prioritize backlog items, ensuring delivery of features that enhance customer experience. - Document and review workflows, then design optimized processes with Alteryx and Power BI, reducing manual reporting, minimizing errors, and improving turnaround times for compliance and audit reporting. - Partner with fraud risk and compliance teams to validate and refine fraud detection models, perform root cause analysis of flagged transactions, and strengthen credit monitoring frameworks, reducing losses while maintaining customer experience. - Support cloud migration initiatives by gathering requirements, assessing risks, coordinating UAT, and validating system performance after deployment on AWS, ensuring minimal disruption during large-scale transitions. - Develop and deliver executive dashboards and reports in Tableau and Power BI, giving leadership real-time visibility into customer behavior, product adoption, operational performance, and emerging risks.	
Business Analyst Mphasis India	Nov 2019 - May 2023
- Collected, analyzed, and documented business requirements with end users, project managers, and technical teams. Prepared BRDs, FSDs, and user stories in Agile projects, ensuring deliverables covered functional and non-functional needs. - acted as primary liaison between business stakeholders and technical teams, translating complex requirements into clear specifications, resolving conflicts, and aligning solutions with project goals, which reduced requirement gaps by 20% and improved delivery accuracy. - Created process flows and mapped current-state operations to identify inefficiencies, bottlenecks, and duplicate tasks. Proposed future-state workflows that improved accuracy, reduced manual work, and increased productivity. - Performed data analysis using SQL and Excel to validate requirements, identify patterns, and track performance. Built interactive dashboards in Power BI that gave management real-time visibility into KPIs. - Partnered with QA and business users during UAT by preparing test scenarios, verifying functionality, and confirming solutions met requirements and compliance standards. - Supported change management by preparing training guides, conducting walkthroughs, and assisting users during rollouts. Ensured smooth adoption of new systems by addressing concerns and providing ongoing support.	
Operations Analyst Intex Technologies India	May 2018 - Oct 2019
- Improved delivery accuracy by 15% by conducting detailed reviews of supply chain and manufacturing operations, identifying process gaps, and working with teams to shorten lead times. - Designed and maintained interactive dashboards in Excel, SQL, and Power BI, consolidating sales data, production logs, and financial records into real-time reports that gave managers clearer visibility into operational performance. - Collaborated with IT, finance, and customer service to refine CRM and ERP system workflows, improving data integrity, reducing duplicate entries, and streamlining order-to-cash processes. - Monitored performance indicators such as inventory turnover, average resolution time, and order cycle time, presenting weekly reports with actionable insights that influenced resource planning and cost control measures. - Assisted finance leaders in analyzing cash flow patterns, pointing out inefficiencies in receivables and payables, and supporting strategies that improved liquidity and strengthened overall working capital management.	

EDUCATION

Master’s in Business analytics Concordia University Wisconsin WI, USA	May 2025
Bachelors in Mechanical engineering Guru Nanak institute of technical campus India	May 2019

CERTIFICATIONS & ACHIVEMENTS

- Oracle Certified Professional Java SE 8 Programmer I** (1Z0-808, 2020)
- Data Analytics by Deloitte** (2025)
- Problem Solving** (Basic, Hacker Rank, 2022)
- KNIME certification: L1**(2025)
