PROFESSIONAL SUMMARY

Accomplished Senior Full Stack Engineer with 4 years of experience in designing and implementing RESTful APIs and optimizing database performance. Proven expertise in mentoring junior developers and implementing security measures to protect user data. Skilled in agile methodologies and collaborating with stakeholders to enhance application features. Adept at utilizing technologies such as JavaScript, SQL, and React to deliver high-quality software solutions.

WORK HISTORY

Senior Full Stack Engineer at Rufus Labs Inc

December 2021 - July 2025 (4 Years)

- Designed and implemented RESTful APIs to facilitate seamless communication between front-end and back-end systems
- Optimized database queries to improve overall system performance, reducing query execution time
- Identified and resolved complex bugs and issues through thorough debugging and troubleshooting techniques
- Mentored junior developers, providing guidance on best practices for code quality, scalability, and maintainability
- Implemented security measures such as authentication mechanisms and encryption protocols to protect sensitive user data
- Participated in code reviews to ensure adherence to coding standards and identify areas for improvement
- Utilized agile methodologies such as Kanban to manage project timelines effectively
- Collaborated with stakeholders to gather requirements for new features or enhancements on existing applications
- Performed code refactoring tasks to improve code readability, modularity, and testability
- Integrated third-party APIs, delivering WMS and other warehouse data within our analytics and metrics application
- Designed database schemas based on relational databases (MySQL)

Full Stack Developer at Freelance

June 2020 - December 2021 (1.5 Years)

- Learned industry best practices and practical software development standards with a focus on Ruby on Rails, PostgreSQL, HTML5, CSS3, JavaScript, jQuery, Node.js, React, and algorithms data structures.
- Created and deployed full stack web applications while learning new languages and frameworks.
- Managed development milestones from initial steps through final delivery, pushing projects with proper branching for new features, using GitHub.
- Reviewed code, debugged problems and corrected issues.
- Planned and engineered RESTful web services to manipulate dynamic datasets.

EDUCATION

Harding University - Bachelors Degree

Graduated 2009-01-01

- Natural Sciences Humanities

SKILLS

- JavaScript (Programming Language), 5 years
- API, 5 years
- Agile Methodology, 4 years
- Algorithms, 5 years
- Amazon Web Services, 4 years
- Data Analysis, 5 years
- HTML5, 5 years
- CSS, 5 years
- Code Review, 5 years
- Databases, 5 years
- Data Structures, 5 years
- Relational Databases, 5 years
- Debugging, 5 years
- Github/Bitbucket, 5 years

LANGUAGES

- English, Native/Bilingual

SOCIAL NETWORKS
