Strategic Operations Manager

Provides Innovative Strategies to Elevate Customer Service, Streamline Solutions, Reduce Operational Costs, and Increase Revenue

SIGNIFICANT ACHIEVEMENTS

- Achieved a 99% success rate in meeting Service Level Agreements (SLAs) for a call center that handles an average of 2,500 calls per month.
- Implemented elevated customer satisfaction levels, resulting in expanded business opportunities and client retention. Our Net Performance Score (NPS) improved from good to excellent over a 5-year period, from below 50 to 60+.
- Implemented strategies to manage agent time, minimizing overtime expenses while staying within the client's budgetary constraints to meet revenue goals. Consistently met quarterly revenue goals by 80%.
- Decreased incomplete data fields by agents from 25% to 10% in two areas of the customer management system, improving data integrity.

PROFESSIONAL EXPERIENCE

Operations Manager, Dialog Direct - A Qualfon Company, Holland, MI, 05/2011 - Present

- Manage the operations of the technical support help desk and provide direction for teams comprising up to 25 members. Identify opportunities for system enhancement and foster the professional development of front-line staff.
- Analyze client and sales data using NetSuite CRM to identify trends, patterns, and opportunities for optimizing marketing strategies and increasing revenue streams.
- Manage and monitor client records for Net Performance Score, call quality reports, IT issues, and knowledge management to facilitate analytical insights aimed at ongoing process enhancement.

- Utilize unified tracking to escalate cases to multiple team members with the necessary technical expertise, significantly reducing ticket resolution time from weeks to 1 to 2 days.
- Develop Standard Operating Procedures (SOPs) for the call center, ensuring consistency and adherence to best practices.
- Redesign customer feedback templates to improve data accuracy and gather more insightful information.
- Provide mentorship and train agents to prepare them for advancement into roles as Team Leader Coaches.
- Establish and implement a training program for onboarding and development of new agents.
- Create and execute continuous improvement programs to enhance overall operational efficiency.
- Responsible for interviewing and hiring agents, ensuring candidates have the appropriate technical aptitude to meet the job requirements.
- Perform agent evaluations and provide coaching with constructive feedback to assist in enhancing their performance and professional growth.
- Facilitate one-on-one sessions with new hires post-initial training to address any areas requiring improvement.
- Work with the Site Director to plan and implement contact center strategies. Prepare and present reports on key performance indicators and operational metrics to senior management, highlighting areas for improvement and opportunities for optimization.
