

NATHASHA BOOKA RAGHU

Business Analyst

Location: Monterey Park, CA, USA | **Phone:** +1(626)-563-7715 | **Email:** nathashagowda2018@gmail.com | [LinkedIn](#)

SUMMARY

- Business Analyst with 2 years of experience in data-driven decision-making, process optimization, and digital transformation across manufacturing, BFSI, and supply chain industries.
- Skilled in requirement gathering, business process analysis, and stakeholder collaboration, translating business needs into actionable insights.
- Proficient in SQL, Python (Pandas, NumPy), Power BI, and Tableau, delivering interactive dashboards and predictive analytics solutions.
- Experienced in enterprise systems integration, including SAP S/4HANA, Salesforce CRM, and Microsoft Dynamics 365, ensuring seamless business operations.
- Strong background in IoT-driven solutions, AI-based analytics, and compliance automation, improving operational efficiency and regulatory adherence.
- Expertise in business process improvement, Lean Six Sigma, and process reengineering, optimizing workflows and driving continuous improvement.
- Adept at Agile (Scrum, Kanban) and Waterfall methodologies, managing projects through Jira, Confluence, and other collaboration tools.
- Hands-on experience with cloud platforms (AWS, Azure, Google Cloud), Snowflake, and Informatica, enabling scalable and secure data solutions.
- Passionate about leveraging advanced analytics, workflow automation, and strategic insights to enhance business performance and decision-making.

SKILLS

- **Business Analysis & Documentation:** Requirement Gathering, BRD, FRD, Use Case Development, Process Modelling (BPMN), Workflow Design, User Stories, Gap Analysis, Impact Analysis, Business Case Development
- **Data Analysis & Visualization:** Power BI, Tableau, Looker, Advanced Excel (Pivot Tables, VLOOKUP, XLOOKUP, Power Query), SQL (MySQL, SQL Server, PostgreSQL), Python (Pandas, NumPy), R
- **Enterprise Tools:** Jira, Confluence, SAP (Materials Management, FICO), Microsoft Dynamics 365, Salesforce CRM
- **Project Management & Methodologies:** Agile (Scrum, Kanban), Waterfall, SDLC, Stakeholder Management, Change Management, Risk Management
- **Business Process Improvement:** Root Cause Analysis (RCA), Lean Six Sigma, DMAIC, Process Reengineering, Continuous Improvement (Kaizen)
- **Soft Skills:** Critical Thinking, Problem-Solving, Communication, Negotiation, Stakeholder Collaboration, Time Management, Presentation Skills
- **Cloud & Integration Tools:** AWS (S3, Redshift, Glue), Google Cloud (Big Query), Azure (Synapse, Data Factory), Informatica, Snowflake
- **Data Analysis Techniques:** Data Cleansing, Data Wrangling, Statistical Analysis, Time Series Analysis, A/B Testing
- **Healthcare & Compliance Knowledge (if applicable):** HIPAA, EMR, EHR, ICD-10, SOX, AML
- **Version Control & Collaboration:** Git, GitHub, Trello, Microsoft Teams, Slack
- **Other Tools:** Microsoft Visio, Lucid chart, ChatGPT

WORK EXPERIENCE

Honeywell

January 2025 – Present

Business Analyst

- Spearheading the Smart Factory IoT Implementation, collaborating with cross-functional teams to integrate IoT sensors and AI-driven analytics for real-time equipment monitoring and predictive maintenance, leading to a 20% reduction in unplanned downtime.
- Conducting business process analysis and workflow automation, leveraging SAP S/4HANA and Azure IoT to enhance manufacturing efficiency and reduce operational downtime.
- Developing real-time dashboards in Power BI, providing actionable insights on equipment health, production performance, and predictive failure alerts for data-driven decision-making.

Business Analyst

- Led the Customer Data Management & Insights for BFSI, developing a data-driven framework integrating Salesforce CRM and predictive analytics to enhance customer segmentation and risk assessment, resulting in a 15% increase in customer retention.
- Conducted requirement gathering sessions with stakeholders, translating business needs into BRD, FRD, and data mapping documents to optimize data processing workflows.
- Designed and implemented SQL-based data models to analyse customer behaviour, supporting fraud detection, churn prediction, and credit risk scoring.
- Developed interactive Power BI and Tableau dashboards, providing real-time insights into customer trends, product adoption rates, and financial risk exposure.
- Collaborated with cross-functional teams, ensuring seamless integration of customer data across multiple systems, reducing data silos and redundancy.
- Implemented data cleansing and transformation strategies using Python (Pandas, NumPy) to improve data accuracy and consistency across analytical models.
- Automated regulatory compliance reporting for AML and SOX using SQL queries and scripting, reducing manual effort and ensuring adherence to financial standards.
- Managed Agile-based sprint planning, tracking project milestones via Jira and Confluence, ensuring timely delivery of analytics solutions.
- Conducted A/B testing and time-series analysis to assess the impact of data-driven customer engagement strategies, leading to improved customer retention rates.

PROJECTS**Real-Time Supplier Risk Assessment System**

- Developed an AI-driven risk assessment model using AWS Redshift and Python, analysing supplier performance metrics and reducing procurement risks.
- Designed an automated vendor evaluation framework, integrating data from SAP Ariba and Power BI dashboards for enhanced decision-making.
- Implemented real-time alerts and anomaly detection, identifying potential disruptions in the supply chain before impacting operations.

Workforce Optimization & HR Analytics

- Developed an AI-powered HR analytics model, leveraging Azure Data Factory to predict employee attrition trends.
- Automated recruitment and workforce planning reports using SQL and Tableau, reducing hiring lead time by 30%.
- Designed a self-service HR insights portal, providing key HR metrics and workforce optimization strategies.

EDUCATION**Master of Science in Engineering Management**

Westcliff University CA, USA

Bachelor of Engineering in Electronics and Communication

Raja Rajeswari College of Engineering, Bangalore, India
