

NAVEEN GAJENDRAN

Data Analyst

(314) 280-8328 ◇ ngajendran@slu.edu ◇ Missouri, United States ◇ [LinkedIn](#)

SUMMARY

Data-driven professional with expertise in **SQL, Power BI, Python**, and statistical analysis. Skilled in database management, data visualization, and workflow optimization to drive actionable insights. Experienced in handling large datasets, ensuring data integrity, and applying data-driven strategies to support decision-making and business efficiency.

EXPERIENCE

Asset Data Analyst May '24 — Present
Saint Louis University St. Louis, United States

- **Performed data analysis and reporting** using Team Dynamix, Excel, and Power BI to track and manage **2,000+ IT assets**, ensuring **95% data accuracy** and optimizing resource allocation.
- **Developed interactive dashboards** to analyze **asset lifecycle trends, financial impact, and usage patterns**, providing actionable insights for IT, finance, and procurement teams.
- **Gathered and documented business requirements** to refine asset tracking workflows, leveraging **data-driven insights** to enhance compliance and reduce redundant assets by **10%**.
- **Led data-driven process improvement initiatives** through **business process modeling, financial analysis, and predictive analytics**, streamlining procurement, optimizing budget alignment, and supporting strategic decision-making.

Project Management Intern Jul '23 — Aug '23
Excelerate

- Led data-driven planning and execution of a global hackathon, defining project scope, objectives using **Jira, Trello, and Microsoft Project** to track tasks, analyze project performance, and ensure alignment with business goals.
- **Collaborated with cross-functional teams** to **gather and document data-driven business requirements**, leveraging insights to **enhance decision-making, stakeholder alignment, and project success**.
- **Applied data analysis, risk assessment, and process optimization techniques** to **identify inefficiencies, mitigate potential issues, and provide actionable insights** for workflow improvements and future projects.

Data Analyst Intern Jun '23 — Jul '23
Excelerate

- **Applied data cleaning and transformation techniques** using **Pandas, NumPy, and Tableau** to preprocess and visualize complex business datasets, ensuring **data accuracy and reliability** for analysis.
- **Conducted data analysis and trend identification**, uncovering **correlations and insights** that supported **process optimization, strategic decision-making, and business process improvements**.
- **Collaborated with stakeholders** to gather and document **business requirements**, develop **actionable reports in Tableau**, and provide **data-driven recommendations**, driving informed decision-making and continuous improvement.

Data Curation Specialist Jan '22 — Jan '23
Gameopedia

- Managed end-to-end **data collection, integration, and ETL pipelines using SQL and Python**, optimizing data governance, metadata management, and query performance, reducing data retrieval time by 20% and ensuring high data quality for analytics and reporting.
- Designed and developed interactive **Tableau** dashboards to visualize **KPIs, trends, and predictive insights**, providing real-time, data-driven recommendations to stakeholders and clients like **Google, Samsung, and HP**, improving business decision-making and operational efficiency.
- Conducted **exploratory data analysis** and statistical modeling to identify patterns, correlations, and anomalies, aligning business objectives with analytical solutions, automating reporting workflows, and enhancing forecasting accuracy for strategic planning.

EDUCATION

Master of Science in Information Systems, Saint Louis University (GPA: 3.86) Aug '23 — Present
St. Louis, United States

Bachelor of Science in Game Design and Development, ICAT Design and Media College Chennai, India

SKILLS

Languages C++, Python, SQL, R, HTML, CSS, Java, DAX
Tools Power BI, Tableau, MS Office, Excel, Jira, Trello, MS Project, SPSS, Snowflake, Alteryx
Frameworks MySQL, Pandas, NumPy, Matplotlib, BPMN, Agile, Scrum, Scikit-learn, TensorFlow, Informatica
Skills KPI & Metrics Tracking, Impact & Feasibility Analysis, Performance Tracking & Reporting, Hypothesis Testing & A/B Testing, Data Pipeline & ETL Management, Exploratory Data Analysis, Regression & Predictive Modeling
