WORK EXPERIENCE

JPMorgan Chase & Co

Nov 2021-May 2023

Software Engineer I

Houston, TX

- Utilized Java, Node.js, JavaScript, and React to develop and enhance software applications in the Order Management System (OMS), ensuring robust and user-friendly solutions.
- Conducted thorough testing and quality assurance for internal systems within the OMS, ensuring optimal functionality and compliance with specifications.
- Led the development and implementation of a secure TCP network infrastructure, aligning with company code guidelines.
- Mentored junior engineers, guiding them in technical problem-solving, reviews, and professional growth to foster a culture of knowledge sharing and development.
- Actively contributed to the Force for Good charity program, volunteering time and expertise for community initiatives, showcasing commitment to corporate social responsibility and creating positive impacts beyond work.

Stooty

July 2021 – Nov 2021

Co-Founding Software Developer

Houston, TX

- Led end-to-end product development at a startup, collaborating with team members to achieve company goals.
- Gained a lot of experience in Ruby, Node.js, Ruby on Rails, AWS, and GCP during the project.
- Utilized AWS and GCP to enhance product scalability and performance.
- Led the migration of the company's application to Amazon Web Services (AWS), contributing to improved scalability, security, and performance on the cloud-based infrastructure.

EDUCATION

Flatiron School

2021

Computer Science

- Completed a comprehensive 5-month education program focused on key technologies, including Ruby, Ruby on Rails, React, JavaScript, HTML, and CSS.
- Successfully developed 5 significant portfolio pieces, showcasing practical skills and proficiency in the learned technologies.
