

Neha Ambhore

Austin, TX | +1 (512)-618-9410 | ndambhore@gmail.com | [My LinkedIn](#) | [My Portfolio](#) | [My GitHub](#)

SKILLS & PROFICIENCY

- **Programming Languages:** Java, Python, JavaScript, C/C++, C#
- **Web Development:** HTML, CSS, React.js, Angular, Bootstrap, jQuery, Node.js, Spring MVC, Spring Boot,
- **Database Technologies:** MySQL, Oracle, Postgres, MongoDB
- **Tools & Technologies:** Docker, Kubernetes, Apache Kafka, Git/GitHub, Agile methodologies, Object-Oriented Design (OOD), RESTful APIs, Maven, Linux, Selenium, JUnit, Jest, Jira, TDD, Unix, Shell Scripting
- **Cloud Platforms:** Amazon Web Services (AWS), Microsoft Azure, GCP

WORK EXPERIENCE

Texas State University

San Marcos, TX

Graduate Research Assistant

Jan 2023 – May 2024

- Designed algorithms and interfaces for NUEVA, a multi-platform food delivery app for underserved older adults.
- Achieved a 30% increase in user engagement within the target demographic through intuitive interface design.
- Led full-stack development using React Native, Python, Django, and Postgres for a seamless user experience.

eQ Technologic

Pune, MH, India

Software Engineer

Oct 2018 – July 2022

- Designing and developing a robust solution for migrating hierarchical manufacturing data.
- Performed task evaluation, designing, development, debugging, code reviews, writing test cases, unit testing, integration testing, monitoring, and deployment on production environments.
- Implemented scripts for production solution upgrades, resulting in a 50% reduction in system downtime during upgrades.
- Coordinated daily tasks, leading to a 15% improvement in project efficiency and timely delivery of milestones.
- Prepared daily reports for upward reporting and engaged in requirement-gathering meetings with clients.

EDUCATION

Texas State University

San Marcos, TX

Master of Science in Computer Science, Cumulative GPA: 3.83/4.00

Aug 2022- May 2024

- **Relevant Coursework** – Algorithm Design and Analysis, Machine Learning in Pattern Recognition, Survey of Software Engineering, Database Theory and Design, Software Quality, Advanced Human Factors in Computer Science.

College of Engineering Pune

Pune, MH, India

Bachelor of Technology in Information Technology

Aug 2014 – May 2018

- **Relevant Coursework** – Data Structures, Object-Oriented Programming, System Programming and Operating System, Artificial Intelligence, Algorithms and Complexity, Cloud and Big Platform, Human Computer Interaction.

PROJECTS

Reservation Cancellation Prediction [Python, Scikit-Learn, pandas]

Dec 2023

- Developed a machine learning model with 90% accuracy for predicting hotel reservation cancellations.
- Utilized exploratory data analysis, data visualization, Python, and advanced feature engineering techniques.

Bobcat Carpool Web Application [React, Google Maps API, Node.js, Postgres]

May 2023

- Constructed and managed the development of the Bobcat Carpool project using React and Node.js, an innovative transportation solution aimed at promoting sustainable commuting among students.

Travel Easy Website [Java, MySQL, Spring Boot, React, HTML, CSS]

Dec 2022

- Designed and developed a comprehensive full-stack travel web application utilizing HTML, CSS, and React for the dynamic front-end, Java, and Spring Boot for the reliable back end, and MySQL for efficient data management.
- Worked in collaboration with a team of three other students to conceive, design, and deliver a feature rich platform with a user-friendly, responsive interface. Worked as full stack developer in this project.

CERTIFICATES

- Fundamentals of Java - Seed Academy, Pune.
- Introduction to Web Development - Coursera.
- IBM Developing Front-End Apps with React – Coursera.

AWARDS

- Graduate Academic Excellence Award
