

Neha Saraswathi Galla

Glassboro, NJ | nehasaraswathigalla@gmail.com | (856) 796-1562 | [LinkedIn](#)

Summary

Data Analyst & AI Enthusiast with 2+ years of experience in data wrangling, analysis, and predictive modeling. Proficient in Python (Pandas, NumPy, Seaborn, and Matplotlib) and Power BI to generate actionable insights. Skilled in SQL, NoSQL (MongoDB, Neo4j), and AI frameworks and models such as TensorFlow, OpenCV, and LLMs. Strong background in building data-driven solutions, including recommendation systems and database optimization. Passionate about leveraging AI and analytics to drive business impact, currently advancing specialization in Generative AI to drive innovation in real-time data solutions and LLM applications.

Experience

Extern

July 2025 - Present

Digital Product AI Strategist, News Corp (Intern)

Remote

- Conducted evaluative research on AI-powered personalization in the news media, analyzing platform strategies, algorithm design, and user engagement data.
- Designed and implemented a user survey to assess reader trust, content preferences, and perceptions of transparency in personalized news experiences.
- Creating synthesis reports and a final presentation deck with insights and recommendations on content strategy, personalization models, user needs, and market trends.

SuperProf

June 2022 - May 2023

Tech Tutor (Freelance)

Remote

- Provided one-on-one online instruction in programming languages such as C and C++, tailored to individual learning needs. Designed customized lesson plans to improve the student's understanding of technical concepts.
- Resulting in 30% improvement in student problem solving skills and support in placement training. Using on-line teaching tools to create interactive learning experiences and effectively communicate complex technical skills.

VCodeM

Aug 2021 - May 2022

Data Analyst (Intern)

Chennai, India

- Analyzed training data for 150+ students and performed data cleaning, modeling, and transformation using Excel and Power BI. Interactive dashboards created to provide information on training effectiveness and improve decision making.
- Improved data precision by 25%, leading to better training program outcomes. Automated report generation, reducing manual effort by 40%.

Saveetha Engineering College

Aug 2020 - May 2022

Research Assistant

Chennai, India

- Led multi-year research on ML-driven water quality prediction using Python, TensorFlow, CNN, Pandas, and OpenCV, developed a model to classify water contamination levels from image data, published in Journal of Physics: Conference Series (ICMMT 2022).
- Refined convolutional neural networks to increase prediction accuracy by 30% and collaborated with environmental experts to align the solution for real-time monitoring and sustainable water management applications. [Publication Link](#)

Projects

Sky Metrics - Space Data and Analytics

MongoDB, Python, Pandas, Fast API

- Designed a scalable MongoDB-based system to centralize and analyze satellite telemetry, sensor data, and imagery. Advanced aggregation pipelines designed for trend analysis, anomaly detection, and geospatial queries.
- Implemented schema-flexible data modeling to handle unstructured and hierarchical data efficiently. Optimized data retrieval speed by 40% using sharding and indexing for real-time monitoring and predictive analytics.

Google Play Store Data Analysis & Visualization

Python, Pandas, NumPy, Seaborn, Matplotlib

- Performed exploratory analysis on 10,000+ app records, uncovering insights into trends, user ratings, pricing models, installs, and market strategies, improving app recommendation efficiency by 35%.
- Executed data wrangling, cleaning, and statistical analysis to ensure accurate and meaningful insights.

Technical Skills

Programming & Databases: Python, Java, C, C++, SQL (MySQL, SQL Server), NoSQL (MongoDB, Neo4j)
Data Science & AI: NumPy, Pandas, Seaborn, Matplotlib, Power BI, TensorFlow, OpenCV, CNN, LLM Models, Data Pipelines
Web Development & Tools: HTML, CSS, JavaScript, WordPress, Agile Methodologies, ORM (SQLAlchemy)

Education

Rowan University	Aug 2023 - May 2025
Master of Science in Computer Science	Glassboro, NJ
Saveetha Engineering College	Aug 2018 - May 2022
Bachelor of Engineering in Computer Science and Engineering	Chennai, India
