

NIBHRAT LOHIA

nlohia@smu.edu | +1-214-704-1810 | 6060 Village Bend Drive, Apt – 1701, Dallas TX-75206

OBJECTIVE

To obtain a full time position which utilizes my analytical and technical skills in Data Analysis and Statistics so that I may gain a broader exposure to the industrial applications of Data Analytics.

EDUCATION

SOUTHERN METHODIST UNIVERSITY
MS in Statistics and Data Analytics – GPA 3.96/4.0

DALLAS, TX
(Expected Graduation Date) May 2017

LONDON SCHOOL OF ECONOMICS (LSE)
Courses in Advanced Econometrics – GRADE (A-)

LONDON, UK
Aug 2015

VIT UNIVERSITY
B.Tech in Mechanical Engineering – CGPA 8.4/10

VELLORE, INDIA
May 2015

SKILLS AND RELEVANT COURSES

Machine Learning, Pattern Recognition, Data Mining, R Programming, Advanced SAS, Python, SQL, Experimental Design, Mathematical Statistics, Econometrics, Operations Research, Data Analytics

PROJECTS and EXPERIENCE

PREDICTIVE POLICING using DALLAS CRIME DATA (Class Project)

- Built models using clustering and classification techniques in R for predicting arrests, crime severity, time of clearance and other vital parameters that can help optimize police resources. (Arrest Model Accuracy – 92%)
- Analysed and explored relationships between key variables like demographics of victim, premise, type and time of crime.

SENTIMENT ANALYSIS, YELP REVIEWS DATA (Ongoing)

- Aim to perform sentiment analysis in Python using deep learning algorithms for predicting user ratings.
- Data has been cleaned and is in pre-processing stage. Estimated time of completion is 2 months.

SUMMER INTERN, BOSCH LTD, Jaipur, India

- Analysed the Fault Data in Long-DRV(pump part) assembly line using basic MS-Excel tools, graphs and plots.
- Suggested changes in assembly section that successfully **resulted in FPY (first pass yield) improvement of 0.91%**.

SUMMER INTERN, NATIONAL HIGHWAY AUTHORITY OF INDIA (NHAI), Delhi, India

- Collaborated with the Project Analysis team on the second phase of ‘golden quadrilateral’ aimed at expanding the 4 lane highway to 6 lane.
- Prepared the data for analysing and comparing the BOT (Build Operate and Transfer) and EPC (Engineering Procurement and Construction) policies using toll data of six years.

OPTIMIZATION OF ATM QUEUES FOR SBBJ BANK (Class Project), Jaipur, India

- Used queueing theory (M/M/1) model to **optimize the queues** at ATM of SBBJ Bank (Jaipur Branch).
- Suggested a new extension counter during prime hours that proved vital to business needs. (Reduced wait time by 12%)

TEACHING ASSISTANT, SOUTHERN METHODIST UNIVERSITY (Ongoing)

- Responsibilities include grading and hold doubt clearing sessions for Experimental Statistics Class under MS in Data Science Program.

GRADUATE ASSISTANT, SOUTHERN METHODIST UNIVERSITY

- Actively took part in designing the curriculum and tutoring High School students in the College Access Programs under TRiO program of US Department of Education.

OTHER ACTIVITIES and CONTRIBUTIONS

GRAD CHAIR, Indian Student Association- Southern Methodist University

May 16-Present

MEMBER, Global Association of Risk Professionals (GARP)

Feb’16-Present

MEMBER, American Statistical Association (ASA)

Oct’15-Present

AMBASSADOR, Entrepreneurship Club, Southern Methodist University

Oct’15-May 16

COMMITTEE COORDINATOR, MARKETING, Gravitas Cultural Fest, VIT University

Sep’14-Oct’14

Played Badminton at District Level Tournaments and Arm Wrestling at State Level.

Provided Pro-Bono service to nationally recognized non-profit organization (BVP) for the development of prosthetic limbs.
