SUMMARY

Business Analyst specializing in **requirements gathering, business process modeling, data analysis, automation, and regulatory compliance** across **banking, financial services, and consulting domains**. Proficient in **SQL, Python, Tableau, Power BI, Oracle, Snowflake, and Databricks**, with hands-on expertise in **cloud platforms (AWS, Azure, GCP), REST APIs, and RPA tools**. Proven track record of delivering **enterprise-grade applications in Agile/Scrum environments**, collaborating with **product managers, developers, risk, and compliance stakeholders** to align solutions with **U.S. banking, SEC, SOX, and audit standards**.

PROFESSIONAL EXPERIENCE

JPMorgan Chase & Co. | USA

July 2025 - Present

Business Analyst

- Analyzed and translated complex business requirements into technical specifications, enabling delivery of enterprise-scale financial solutions impacting **over 5 million daily transactions** across payments, lending, compliance, and cash management systems.
- Developed reporting and automation solutions using **SQL, Tableau, BI tools, Oracle, Snowflake, and Python**, streamlining reconciliation workflows and providing executives with **real-time insights into 50+ KPIs**.
- Designed **REST API requirement frameworks** and user stories supporting **10+ mission-critical applications**, working with developers and QA teams in **Agile (Jira/Confluence)** environments to enhance cross-platform integration and automation.
- Collaborated with product managers, risk analysts, and compliance officers to implement **regulatory-driven system enhancements**, successfully delivering **5+ enterprise-grade applications** aligned with **U.S. banking and SEC standards**.
- Defined business use cases for **AWS (EC2, S3, Lambda)** to support **millions of automated financial transactions weekly**, improving scalability, resiliency, and overall system performance.

KPMG | India

Jul 2022 - Jun 2023

Business Analyst

- Evaluated** business processes and gathered requirements for **5+ enterprise clients** in **banking, financial services, and consulting**, delivering automation and **data-driven solutions** to improve compliance and efficiency.
- Performed advanced analysis using **SQL, Excel, Tableau, Power BI, and Python**, consolidating **millions of financial records** to generate executive and regulatory reports that guided decision-making.
- Produced **functional specifications, data pipelines, and workflow documentation** to support **enterprise-scale digital transformation and cloud migration projects**.
- Facilitated **10+ stakeholder workshops and client presentations** with executives, risk, and compliance teams to align solutions with regulatory requirements and business objectives.
- Defined requirements for **automation (RPA: UiPath, Automation Anywhere)** and **AI-driven analytics**, reducing manual workloads across **multiple client operations**.

Trigent | India

May 2021 - Jun 2022

Business Analyst

- Documented requirements for **multiple IT services and product development projects**, preparing **functional specifications, process flows, and user stories** for development teams.
- Conducted data analysis using **SQL, Excel, BI tools, and Python** to process datasets across **3+ enterprise systems**, ensuring reporting accuracy and compliance deliverables.
- Partnered with developers, QA, and product managers in **Agile/Scrum settings** to deliver **application enhancements, APIs, and new product features**.
- Conducted requirement-gathering sessions and stakeholder workshops, enabling delivery of **5+ enterprise-grade applications**.
- Supported **automation and cloud initiatives** by documenting workflows and integration requirements, contributing to solutions on **Azure and ServiceNow** for multiple client engagements.

TECHNICAL SKILLS

- Data Analysis & Databases:** SQL (MySQL, PostgreSQL, Oracle, SQL Server), Snowflake, Databricks, Advanced Excel (Pivot Tables, Power Query, VLOOKUP), ETL (SSIS, Informatica, Talend)
- Data Visualization & BI:** Tableau, Power BI, Qlik Sense, Looker
- Programming & Scripting:** Python (Pandas, NumPy), R, JSON/XML for API integration
- Cloud Platforms:** AWS (EC2, S3, Lambda, RDS, Redshift), Microsoft Azure (Data Factory, Synapse, Logic Apps), Google Cloud (BigQuery, Cloud Storage), ServiceNow
- Automation & AI:** RPA (UiPath, Automation Anywhere, Blue Prism), Alteryx, AI/ML-powered analytics (predictive modeling, NLP exposure)
- APIs & Integrations:** REST APIs, SOAP APIs, Postman, Swagger, API frameworks, integration mapping
- Agile & Project Tools:** Jira, Confluence, Trello, Asana, MS Project, Smartsheet, Agile/Scrum, SAFe
- Workflow & Documentation:** MS Visio, Lucidchart, BPMN, UML, MS Office Suite, SharePoint, Miro, Figma
- Compliance & Domain (Banking/Finance):** U.S. Banking Regulations (SEC, SOX, Dodd-Frank, Basel III), Risk & Compliance, KYC/AML, Audit & Regulatory reporting

EDUCATION

Stevens Institute of Technology, USA

Aug 2023-May 2025

Master's in Information Systems

VNR Vignana Jyothi Institute of Engineering & Technology, India

Sep 2019 - May 2023

B.Tech, Computer Science & Engineering

RESEARCH & PUBLICATION

Caption Suggestions Through Facial Expression Analysis

- Developed an AI system using **Python, OpenCV, and deep learning** to analyze facial expressions and suggest real-time captions.
- Implemented **CNN-based models** for emotion detection, tested across multiple datasets.
- Published research demonstrating applications in **personalized content, accessibility, and digital engagement**.
