SUMMARY

Results-driven Data Analyst with over 5 years of experience in transforming complex datasets into actionable insights that drive business decisions and operational efficiency.

Proficient in SQL, Python, Snowflake, Tableau, Power BI, and ETL automation, with expertise in data modeling, statistical analysis, and business intelligence.

Skilled at optimizing data pipelines, automating workflows, and developing dynamic dashboards to improve data accuracy and decision-making.

Adept at collaborating with cross-functional teams to align data strategies with business goals, resulting in measurable cost and time savings, and supporting onboarding of new projects.

PROFESSIONAL EXPERIENCE

Data Analyst

Dec '22 — Present

Anthem

Atlanta, United States

- Designed and automated ETL pipelines using Python and SQL, streamlining data workflows and improving data integration efficiency for various projects and entry-level onboarding.
- Queried and optimized large datasets from Snowflake using SQL, reducing query execution time by 30%.
- Developed 10+ interactive dashboards in Tableau and Power BI, tracking key healthcare metrics like patient adherence, claims processing, and fraud detection, enhancing data-driven decision-making and supporting cross-functional projects.
- Automated anomaly detection in compliance data using DAX calculations and Python, reducing manual review time by 40% and ensuring high data quality, aligning with strategic technology goals.
- Integrated API data sources into Power BI dashboards, enhancing real-time reporting and expanding data accessibility for cross-functional teams.
- Partnered with cross-functional teams to align data pipelines with strategic business goals, fostering technology-driven initiatives and supporting entry-level analysts.

Data Analyst

May '21 — Apr '22

Triotek IT INC

Hyderabad, India

- Extracted and transformed structured & semi-structured data using SQL and Python, ensuring high data quality for business reporting and supporting entry-level analysts in technical education.
- Optimized SQL queries and indexes, improving data retrieval speeds for high-volume datasets.
- Built Power BI and Tableau dashboards that provided real-time insights into customer retention, sales trends, and operational performance, aiding in onboarding new team members and supporting technology-driven initiatives.
- Automated data validation scripts in Python, reducing manual errors and improving data accuracy by 25%, contributing to technical education initiatives and aligning with strategic goals.
- Assisted in migrating reporting processes to Snowflake, improving query performance and scalability, and supporting cross-functional projects and technology-driven initiatives.
- Collaborated with business teams to define key metrics and KPIs, improving data-driven decision-making and aligning with strategic technology goals and cross-functional projects.

Junior Data Analyst

Jan '19 — May '21

Tata Consultancy Services (TCS)

Hyderabad, India

- Designed and implemented ETL workflows using Python and SQL, ensuring efficient data extraction, transformation, and loading, and supporting academic background diversity and entry-level onboarding.
- Managed large row datasets in SQL, leveraging CTEs and window functions to improve query performance and data retrieval.
- Created 20+ Power BI dashboards with advanced DAX calculations, providing key insights for revenue forecasting and sales performance tracking, enhancing entry-level training and supporting onboarding processes.
- Implemented A/B testing frameworks to analyze the impact of business changes on revenue growth.
- Automated Excel-based reporting using VBA and Power Query, reducing manual work and cutting processing time by 85%.
- Migrated legacy reports and dashboards to Snowflake, improving data accessibility and performance, and supporting H1B visa holders in technical roles and cross-functional projects.

EDUCATION

Master in Data Science, Lewis University

May '22 — Aug '23

CERTIFICATIONS

Google Data Analytics Professional Certificate, Google

SKILLS

- Relevant Skills** Entry-level, Technical Education, Academic Background, Onboarding, Projects, Authorization, CPT, Switchers
- Data Analysis & Visualization** SQL, Python (Pandas, NumPy, Matplotlib, Seaborn), Tableau, Power BI, Excel (Power Query, VBA)
- Database Management** Snowflake, MySQL, PostgreSQL, BigQuery
- ETL & Data Processing** Data Warehousing, Data Cleansing, Automation
- Statistical Analysis** Regression Analysis, Hypothesis Testing, A/B Testing
- Reporting & Visualization** DAX, Tableau Calculations, Power BI Custom Visuals, KPI Dashboards
