Portfolio: github.com/mrNiiAmatey

Professional Summary

Computer Science graduate (June 2025) with hands-on experience in **Python, Java, and full-stack development**. Skilled in **data structures, algorithms, and secure software practices**. Experienced with **cloud platforms (AWS, GCP, Azure)** and building **scalable applications**. Familiar with **ML/AI models and reinforcement learning agents**. Quick to adapt to new tools and methodologies.

Core Skills

Languages & Frameworks: Python, Java, JavaScript (Node.js, Angular), REST APIs, JUnit

Cloud & DevOps: AWS (Lambda, DynamoDB, API Gateway, S3), Docker, CI/CD (GitHub Actions), GCP & Azure (familiarity)

Security & Standards: OWASP Top 10, NIST Cybersecurity Framework, Secure Coding

Data & ML/AI: MongoDB, DynamoDB, TensorFlow/Keras, NumPy, Pandas, Deep Q-Learning

Education

B.S., Computer Science – Southern New Hampshire University (Jun 2025)

A.S., Computer Science – Dallas College (Apr 2021)

Highlighted Projects

AWS Serverless Q&A; Platform – Built Angular frontend + AWS backend (Lambda, API Gateway, DynamoDB); delivered secure CRUD operations.

TravlR MEAN Stack Web App – Deployed booking site with Angular + Node.js/Express + MongoDB; Dockerized to cut setup time by 50%.

Deep Reinforcement Learning (Python, TensorFlow/Keras) – Trained DQN agent on custom “Treasure Maze,” applying Experience Replay, reward shaping, and TensorBoard visualizations.

Secure Java Applications – Applied OWASP Top 10 mitigations & NIST controls; developed tested CRUD systems with 95% coverage.

Experience

Student Developer – SNHU (2022–2025)

- Built secure MEAN-stack capstone project with JWT auth & Docker-based CI/CD, reducing manual deployments by 80%.
- Designed Java CRUD modules (100% JUnit pass rate) and library system (95% test coverage; 40% faster queries).
- Tuned CartPole RL agent to converge in <150 episodes; logged metrics in TensorBoard.

Certified Pharmacy Technician – Walmart (2019–Present)

- Optimized workflows to reduce customer wait times by 15% and trained 3+ new hires, cutting onboarding by 25%.
- Processed 120+ prescriptions daily with 99.8% accuracy, ensuring compliance and patient safety.
