

Nikhil Chandra Batte Data Analyst Green Bay, WI +1 (414)-293-3158 nikhil739656@gmail.com LinkedIn	
PROFESSIONAL SUMMARY	
Data Analyst with 4+ years of experience extracting, analyzing, and interpreting large-scale structured and unstructured datasets across financial, healthcare, retail, and technology sectors. Skilled in SQL, Python, R, and advanced Excel for data processing, with strong expertise in Tableau, Power BI, and Looker for interactive dashboards. Hands-on experience with cloud platforms (AWS, GCP, Azure) and modern ETL tools (Airflow, dbt, Glue, ADF). Adept at applying machine learning techniques (Scikit-learn, XGBoost, ARIMA) for forecasting, anomaly detection, and customer segmentation. Proven success in automating workflows, improving reporting accuracy by up to 30%, and delivering insights that drive measurable business growth.	
SKILLS	
Programming & Query Languages: Python (Pandas, NumPy, Scikit-learn, XGBoost, NLTK, Regex, BeautifulSoup), SQL, R, VBA, Bash Data Analysis & Modeling: Data Wrangling, Forecasting, Hypothesis Testing, A/B Testing, Cohort Analysis, RFM Modeling, Customer Segmentation, Sentiment Analysis, Retention Analysis Visualization & Reporting: Tableau, Power BI, Looker, Excel (Pivot Tables, Power Query), Streamlit, Google Data Studio ETL & Data Engineering: Apache Airflow, dbt, AWS Glue, Azure Data Factory, REST APIs, Data Transformation & Automation Cloud & Databases: AWS (S3, Redshift, RDS, Athena, Glue), GCP (BigQuery, Cloud Storage), Azure (Synapse, Blob Storage, ADF), Snowflake, PostgreSQL, MySQL, SQL Server, MongoDB, Firebase CRM & Marketing Analytics Tools: Salesforce, HubSpot, Marketo, Klaviyo, Mailchimp, Google Analytics, Adobe Analytics, Segment Automation & AI Tools: ChatGPT, Microsoft Copilot, AutoML, Campaign Tracking Automation Workflow & Methodologies: Git/GitHub, JIRA, Confluence, Bitbucket, Agile (Scrum, Kanban), CRISP-DM, SDLC Soft Skills: Data Storytelling, Problem-Solving, Critical Thinking, Cross-Functional Collaboration, Effective Communication Operating Systems: Windows, Linux, macOS	
EXPERIENCE	
Data Analyst Uber WI, USA	Feb 2025 – Present
- Designed and maintained scalable SQL pipelines to monitor driver performance metrics, cutting manual reporting by 70% and supporting operations across 15+ markets. - Developed interactive Tableau dashboards to track ride cancellations, driver churn, and supply–demand balance, improving driver retention by 6% and reducing unfulfilled trips by 9%. - Partnered with data scientists to define KPIs and execute A/B testing for rider engagement, leading to a 12% increase in monthly active users across underperforming markets. - Automated anomaly detection workflows using Python (Pandas, NumPy, Scikit-learn) and Airflow, reducing incident triage time by 60% and enhancing fraud detection accuracy. - Analyzed traffic and GPS deviation logs with operations teams to optimize ETA models, decreasing arrival time variance by 22% in Tier-2 cities. - Strengthened experimentation frameworks by validating statistical significance (t-tests, chi-square) and delivering actionable insights that guided product rollout decisions.	
Intern – Data Analyst Dell Technologies USA	Jul 2024 – Dec 2024
- Consolidated and transformed multi-source datasets (support tickets, product logs, CRM exports) into a unified Power BI dashboard, reducing prep time for customer success teams by 50%. - Wrote optimized SQL queries to track SLA compliance and escalation trends across 7 business units, identifying workflows causing 65% of late resolutions. - Processed 5M+ warranty claim records using Python (Pandas, Regex), boosting downstream reporting accuracy by 28%. - Performed root cause analysis on recurring technical complaints, uncovering the top 5 product issues and reducing repeat complaint volume by 15%. - QA-tested ETL pipelines across Dev, QA, UAT, and Prod environments, validating joins, mapping rules, and null handling. - Collaborated in Agile sprint reviews, ensuring alignment between business requirements and visualization logic during report deployments.	
Data Analyst Cybage Software India	Feb 2020 – May 2023
- Developed fraud analytics dashboards for multinational banking clients, detecting high-risk transactions with over 92% precision and strengthening fraud prevention measures. - Automated compliance reporting using SQL and Python, reducing reconciliation effort by 40% and accelerating audit cycles. - Migrated 25+ manual MIS reports from Excel to Power BI with drill-through filters, bookmarks, and automated refresh, cutting delivery time from 3 days to under 6 hours. - Built time-series forecasting models (ARIMA, Holt-Winters) for loan and deposit growth, improving monthly planning accuracy by 24%. - Authored metadata dictionaries and business logic documentation to ensure consistent dashboard interpretation across finance, audit, and operations teams. - Led UAT sessions with business stakeholders to validate reporting logic, improve usability, and implement feature enhancements based on feedback.	
Data Analyst Sage Softech India	Jun 2018 – Dec 2019
- Designed retail performance dashboards in Tableau for 5 client organizations, enabling real-time KPI tracking of sales, promotions, and staff utilization. - Automated recurring sales reporting with MySQL queries and Excel exports, reducing daily reporting time from 3 hours to 45 minutes per store. - Led CRM data hygiene initiatives to eliminate duplicates and inactive leads, improving campaign reach accuracy by 35%. - Analyzed seasonal promotional campaign drop-off rates, implementing optimizations that boosted conversions by 12%. - Delivered ad-hoc data extracts and insights to marketing teams within 24-hour SLAs, supporting product launches and quarterly reviews. - Built interactive Excel-based sales tracking templates (Power Query, advanced formulas), adopted across 20+ retail branches and maintained for over a year.	
EDUCATION	
Master in Information Technology and Management	Dec 2024
University of Wisconsin Milwaukee Milwaukee, USA	
Bachelor of Commerce in Computers	May 2019
Omega Degree College Hyderabad, India
