SUMMARY

Java Developer with **4+ years of experience** in building scalable enterprise applications using **Java (11+)**, **Spring Boot**, and **Microservices**. Skilled in full-stack development with **Angular**, **React**, **Hibernate**, and **Kafka**. Experienced with **AWS**, **Azure**, and **CI/CD automation** using Docker, Kubernetes, Jenkins, and GitHub Actions. Proficient in optimizing **PostgreSQL**, **MySQL**, and **MongoDB** databases. Strong team player with a focus on clean code, agile practices, and delivering secure, high-performance solutions.

KEYSKILLS

- Programming Languages: Java, Kotlin, Python, JavaScript (Node.js, Frontend), and ReactJs.
- Frameworks & Libraries: Spring Boot, Next.js, GraphQL.
- Frontend Technologies: JavaScript, React, Angular, Typescript.
- Cloud Platforms: AWS (EC2, Lambda, S3, DynamoDB, CloudFront, CloudWatch), Azure
- DevOps & CI/CD: Jenkins, CircleCI, Terraform, Git.
- Databases: PostgreSQL, DynamoDB, Apache Gremlin.
- Testing & Debugging: JUnit, Selenium, Integration Testing.
- Development Practices: Agile, TDD, Pair Programming, Peer Code Reviews.
- Tools: Git, Jira.

WORK EXPERIENCE

Padmavati Diamonds Inc.,
Manhattan, NY

Feb 2023-Present

Java developer

- Designed and deployed scalable **Java Spring Boot microservices**, enhancing system reliability and accelerating processing for financial platforms.
- Created and integrated **RESTful APIs** to streamline server-client communication, improving data flow efficiency by **25%**.
- Improved performance across **PostgreSQL**, **MySQL**, and **MongoDB** databases using indexing strategies and query optimization, reducing response times by **30%**.
- Implemented robust security frameworks using **OAuth 2.0**, **JWT**, and **role-based access control (RBAC)** to align with compliance requirements.
- Led cloud migration to **AWS** (EC2, Lambda, RDS), improving infrastructure elasticity while cutting operational costs by **15%**.
- Developed and maintained **containerized applications** using **Docker** and managed orchestration with **Kubernetes** for seamless scaling and uninterrupted deployments.
- Automated **CI/CD** workflows with **Jenkins** and **GitHub Actions**, accelerating deployment cycles and reducing release time by **40%**.
- Actively engaged in **Agile Scrum** processes and mentored junior developers, reinforcing clean code practices and fostering collaborative team culture.

Appjenix InfoTech LLP, Surat, India

Jan 2021- Oct 2022

Java Developer Intern

- Developed **RESTful APIs** using **Spring Boot** to handle user operations and management..
- Implemented authentication and authorization using **JWT** and **Spring Security**.
- Wrote unit tests using **JUnit** and handled API testing with **Postman**, improving code reliability.
- Collaborated in an **Agile** team using tools like **JIRA** and **GitHub** to manage tasks and version control.
- Assisted in database design and optimization, creating indexes that reduced query times by 30%.

EDUCATION

Bachelor's in Computer science
Shree Ram Krishna Institute of Computer education & applied
science, Surat, India **June 2018 to July 2021.**

Master's in Computer Science Pace University, NY, USA,
Jan 2023 to Dec 2024
