- Data Pipelines & ETL | Data Modeling & Data Visualization | Data Processing | Business Intelligence (BI)
- Cross-team collaboration | Stakeholder management | Communication & Teamwork | Problem-solving | Critical-thinking | Research and Experimentation | Self-Starter

WORK EXPERIENCE

Hana Microfinance Limited, Hana Financial Group (South Korea) Yangon, Myanmar
Analytics Engineer Jul 2023 - Aug 2025 (2+ years)

- Led and built the Risk Zone Validation toolkit utilizing Folium, NetworkX, Python, OpenStreetMap, and ACLED, which achieved 95% accuracy, enabling proactive protection of human and financial assets in high-risk areas.
- Developed 10+ major projects, including **Risk Zone Validation Toolkit, Customer Segmentation, Staff Performance Metrics, Loan Officer Assignment pipeline, and Geo-visualization reports and dashboards**, and executed and delivered 20+ data products through dashboards, auto-mail reports, and in-house self-service platforms.
- Created and maintained 10+ interactive dashboards (Power BI & Excel) for Executive Board; Credit Committee and Executive Committee, achieving 98% data accuracy, cutting manual workload by 95%, and ensuring minimum service downtime.

Junior Data Analyst Jan 2022 - Jul 2023 (1 year 6 months)

- Developed 5+ major projects, including **Client Retention Analysis and Loan Approval Tracking Dashboard**, leveraging advanced queries across different environments such as AWS Redshift, MySQL and Dataverse.
- Developed and implemented KPI metrics for operational staffs, reducing manual workload by 85% and achieving 96% accuracy to support marketing campaigns, performance-based rewards and incentives, which resulted a significant boost in staff performance and company profitability.

EDUCATION

- **San Francisco Bay University (Present) | August 2024 - Present**
Master of Computer Science
- **Myanmar Institute of Information Technology (MIIT) | December 2015 - 2022 September**
Bachelor of Engineering with Honors in Electronic and Communication Engineering
