

NIMANSHU H. BHIKADIYA

Arlington, TX | +1 (682) 373-1818 | nimanshu312@gmail.com | [Linkedin](#)

SUMMARY:

Results-driven Software Engineer with **3+ years of experience** in cloud migration (**AWS, Google Cloud**), Agile methodologies, and CI/CD pipelines. Reduced operational costs by 20%, improved deployment efficiency by 50%, and achieved 99.5% system uptime. Proficient in JavaScript, React JS, Node.js, Python, and database optimization (SQL Server, MongoDB), cutting data retrieval times by 50%. Automated testing and deployment processes, reducing bugs by 45% and enhancing user satisfaction by 30%. Collaborative team player with a proven ability to deliver high-impact software solutions in fast-paced environments.

SKILLS:

- **Programming Languages:** Java, Python, C++, JavaScript
- **Web Technologies:** React.js, Node.js, Express.js, HTML5, CSS3, Bootstrap, jQuery, JSON, XML
- **Frameworks & Libraries:** Spring Framework (Spring Boot, MVC, Security), Thymeleaf, Hibernate, MyBatis, .NET
- **Backend Development:** RESTful APIs, Microservices, SOAP
- **Databases:** SQL Server, MySQL, MongoDB
- **Cloud & DevOps:** AWS, Google Cloud, Docker, Kubernetes, Jenkins, CI/CD
- **Tools:** Git, Jira, Postman, Splunk, NPM, Eureka, Swagger
- **Testing & Debugging:** Unit Testing (JUnit, Mockito), Debugging
- **Other Skills:** Data Structures & Algorithms, Agile, Scrum

EXPERIENCE:

Genesys	Jul 2024 - Present
Software Engineer	
• Led the migration of legacy systems to AWS cloud infrastructure, saving 20% in operational costs and improving deployment efficiency by 50%, while supporting over 100 active users seamlessly. • Implemented Agile methodologies across teams, accelerating software release cycles and enhancing team collaboration. • Optimized database queries for SQL Server and MongoDB, enabling faster data retrieval and real-time analytics for user interactions. • Automated testing and deployment processes, reducing bugs and enabling faster release cycles for high-budget projects. • Debugged and improved multiple software applications, increasing system reliability and achieving high uptime. • Designed and implemented scalable microservices architecture, improving system modularity and maintainability. • Conducted performance tuning and load testing, ensuring optimal system performance under high user traffic	
HCL Technologies	Aug 2019 - Aug 2022
Jr. Software Developer	
• Collaborated with cross-functional Agile teams to set up CI/CD pipelines using Jenkins and Docker, cutting deployment times by 50% for 15+ microservices. • Automated testing processes using JUnit and Mockito, reducing downtime and enabling frequent deployments. • Developed web applications using JavaScript and React JS, improving performance and user satisfaction. • Created Python scripts to automate data processing tasks, increasing team efficiency and reducing errors. • Utilized Google Cloud for deploying and scaling applications, ensuring optimal performance and scalability. • Integrated third-party APIs to enhance application functionality and improve user experience. • Conducted code reviews and provided mentorship to junior developers, improving code quality and team productivity	

PROJECTS:

The University of Texas at Arlington	
AI-Powered Code Review Assistant	
• Developed an AI-powered code review tool using Python, TensorFlow, and React.js to automate bug detection and code optimization, deployed on AWS with CI/CD pipelines using Docker and Jenkins. Integrated GitHub API for seamless repository analysis and implemented a feedback mechanism to improve model accuracy over time.	
Gujarat Technological University	
Smart Attendance System Using Facial Recognition Built a facial recognition-based attendance system using Python, OpenCV, and Django, deployed on AWS for scalability. Added multi-factor authentication (MFA) for security and integrated a dashboard using Chart.js to visualize attendance trends and generate actionable insights.	

EDUCATION:

The University of Texas at Arlington	
• Master of Science in Computer Science GPA: 3.55/4.0	Aug 2022 - May 2024
Gujarat Technological University	
• B.E in Information & Communication Technology GPA: 9.73/10.0	Aug 2018 - Jun 2022
