SUMMARY

Young professional with a Master of Science in Information Management and practical experience analyzing data, building data pipelines, and developing dashboards. Proficient in SQL, Python, and Tableau with a solid foundation in IoT systems, cloud technologies, and time-series analysis. I am skilled at translating data into actionable insights to support engineering, product, and customer support teams. Passionate about optimizing system performance and customer experience through data-driven problem solving.

SKILLS

- **Programming and Analysis:** Python, SQL, R, Java, Regression Modeling, A/B Testing, Sentiment Analysis, Time-Series Analysis
- **Data Tools:** Tableau, Power BI, Excel/Sheets, Snowflake, MySQL, Azure Data, Salesforce Admin Beginner
- **Concepts:** BI Systems, ETL Pipelines, Data Validation, Anomaly Detection, Reporting and Dashboarding
- **Soft Skills:** Stakeholder Communication, Weekly Business Reviews, Problem Solving, Cross-Functional Collaboration

EDUCATION

University of Washington – Seattle, WA

Sep 2023 - Jun 2025

Master of Science, Information Management

- **Coursework:** Foundations of Information Management, Data Science I: Theoretical Foundations, Management and Strategic Leadership, DS 2: Machine Learning, Cyber Security, Advanced regional databases, BI 2/3

University of Washington – Seattle, WA

Sep 2019 - Mar 2023

Bachelor of Arts, Geography

- **Coursework:** Computer Programming II, Data Structures and Algorithms, Introduction to Machine Learning, GIS and Mapping, Core Methods in Data Science, Advanced Digital Geographies

PROFESSIONAL EXPERIENCE

Gravity Media

Nov 2024 - Present

Production Assistant

Des Moines, WA

- Assisted the Production Coordinator in organizing and executing LTA Riot Games Twitch shows, utilizing team collaboration skills to ensure smooth operations
- Operated Tagboard for LTA streams, ensuring accurate and timely display of content to enhance viewer engagement

University of Washington

Aug 2023 – Oct 2023

Technology and Communications Assistant

Seattle, WA

- Supported IT infrastructure for the Disability Resources for Students (DRS) program, improving operational excellence for many students.
- Maintained and troubleshooted workstations. Enhanced system reliability, leading to improved user satisfaction.

University of Washington

Nov 2022 - Jun 2025

DRS Office Testing Assistant

Seattle, WA

- Facilitated testing accommodations for students with disabilities, ensuring accessibility and inclusion, which improved student satisfaction and academic performance
- Collaborated with diverse teams to provide seamless support for graduate, undergraduate, and professional programs, enhancing program efficiency and student engagement

PROJECTS & RESEARCH

Business Intelligence Pipeline – Restaurant Data Project

2024

- *Designed and automated a full-stack BI system* to collect, transform, and visualize restaurant performance data using SQL and Python. Created interactive dashboards in Tableau to deliver customer trend insights and support decision-making.

Carbon Labeling Impact Research – A/B Testing + Sentiment Analysis

2024

- Led a data science project analyzing how carbon footprint labels affect online consumer behavior. Combined survey analysis with NLP on e-commerce reviews to derive insights that informed sustainable business strategies.

Constitutional Semantic Modeling

Sep 2024 - Jun 2025

- Created a relational data model and SQL query framework for navigating legal text. This resulted in three capstone awards, including the Spark Award for Creativity, for its innovative data architecture and accessibility impact.

LEADERSHIP & INTERESTS

Purple Caster Minion (PCM) RSO

2021 - 2023

Executive

- As President (2021–2023), grew organization membership by 30% to over 1,000 members, implementing targeted engagement strategies.

UW Esports

2022 - 2023

League of Legends Manager

- Managed the UW League of Legends team, securing a 3rd/4th place finish in the PAC12 CLOL Conference (2022-2023).
