Summary

Detail-oriented and data-driven individual. Experience with software and hardware support, data storytelling, and building reports. Comfortable organizing simple and complex projects. Proven ability to meet deadlines while providing support to clients and team members. Self-motivated and always eager to find a challenge.

Education

Forsyth Technical College - Winston-Salem, NC
Associate: Information Technology and Web Technology

Graduated 2022

Work History

IT Tech

10/2023 - 07/2025

Ford Motor Company - Dearborn, MI

Provided essential technical support for key Ford teams, regarding both hardware and software needs. Collaborated with internal departments to troubleshoot technical issues across various systems, ensured technical stability for critical operations, and optimized IT infrastructure and workflows.

- Provided on-site technical support to vital operational teams
- Analyzed incident trends to create proactive IT improvements
- Coordinated cross department resolutions to resolve larger issues

IT Tech & Analyst

07/2022 - 09/2023

Great Lakes ACE Hardware HQ - Farmington Hills, MI

Worked cross department with the IT and Analytics teams. Utilize analytic tools to provide business and technical expertise across multiple functions within the company. Assisting in moving Analytics and IT tools/information from old databases.

- Remote hardware and software support for Midwest stores
- Work with M&A team on technical setup in field
- Part of the software team
- Maintain several weekly reports
- Develop process-improvement solutions with Excel/VBA for automation

Internship

HRIS Analyst

03/2018 - 10/2018

InterFlex Group - Wilkesboro, NC

Worked under a Global HR team. Conducted research and data analysis to support key HR initiatives (rewards, services, talent and organizational effectiveness), and leverage insights to inform overall HR strategies.

- Data analytics for employee engagement
- Created intuitive spreadsheets and organizational tools
- Analytics for KPI reporting
