

NUONA CHEN

12297 PACKERS AVE, FISHERS, IN 46037 • NUONACHEN@OUTLOOK.COM • (734) 881-7320 • PERMANENT RESIDENT

OBJECTIVES

Seeking a position in data analytics. Experienced in multiple programming languages and tools, with a strong foundation in statistical modeling and machine learning. Proficient in data preparation, analysis, and visualization to build reliable pipelines, create dashboards, and deliver actionable insights that support strategic business decisions.

EDUCATION

M.S. IN BIOSTATISTICS

Aug 2021 - Dec 2024

University of Michigan

Ann Arbor, MI

Relevant Courses: Probability and Distribution Theory, Biostatistical Inference, Generalized Linear Models, Longitudinal Analysis, Survival Analysis, Data Manipulation and Analysis, Machine Learning

B.S. IN COMPUTER SCIENCE, GPA: 3.54/4.00

Aug 2016 - Jul 2021

Indiana University

Bloomington, IN

Relevant Courses: Data Analysis and Mining, Algorithm Design and Analysis, Software Systems, Data Structures

B.S. IN PUBLIC HEALTH – EPIDEMIOLOGY, WITH DISTINCTION, GPA: 3.54/4.00

Aug 2016 - Jul 2021

Indiana University

Bloomington, IN

Relevant Courses: Biostatistical Computing with SAS

SKILLS

Programming: Python, R, Java, C, C++

Data Manipulation & Visualization: NumPy, Pandas, seaborn, matplotlib, tidyverse, ggplot2, PowerBI

Statistical Analysis & Modeling: statsmodels, glm, lme4, sklearn, SciPy, TensorFlow, PyTorch

Development Tools: Jupyter Notebook, Google Colab, Git

Others: SAS, SQL, HTML, JavaScript, Excel

EMPLOYMENT AND EXPERIENCE

GENERAL AI DATA ANNOTATOR

Jun 2024 - Present

RWS

Remote in Fishers, IN

- ◆ Perform detailed labeling of AI-generated voice data for Meta wearable devices, following guidelines to help improve model accuracy.

LANGUAGE DATA ANALYST

Nov 2021 – Jan 2024

Volga Partners

Remote in Ann Arbor, MI

- ◆ Classified and annotated Microsoft Bing web search result data on the UHRS platform by adhering to a series of logical standards and procedures.
- ◆ Led a team of auditors in web search result classification, conducted data manipulation in Excel (VLOOKUP, XLOOKUP, Pivot Table), and identified abnormal trends while coordinating with project management team.

HEALTH INSURANCE NAVIGATOR INTERN

May 2021 - Jul 2021

Midwest Asian Health Association

Chicago, IL

- ◆ Provided consultation about the Medicaid and Marketplace Qualified Health Plan applications.
- ◆ Assisted the Smart Match Employment Program with administrative duties for the CARF accreditation.

DATA PROJECTS

MARKETING CAMPAIGN ANALYSIS (*AB Testing*)

- ◆ Evaluated the effects of a campaign across user stages, including awareness, engagement, and conversion.
- ◆ Fit Gamma GLM with log link and robust Ses to model skewed outcomes with heteroskedasticity
- ◆ Used Brunner-Munzel tests to compare click results between campaign groups.
- ◆ Assessed model assumptions with mean-variance plots, log-log residual, and VIF for multicollinearity.

CERVICAL CANCER RISK PREDICTION (*Tree-based Classification*)

- ◆ Built Decision Tree, Random Forest, and AdaBoost models to predict biopsy outcomes.
- ◆ Imputed missing values (median/mode) and performed EDA for feature distributions.
- ◆ Applied SMOTE to address class imbalance and improve minority class recall during model training.
- ◆ Tuned models with 5-fold CV, optimizing recall to prioritize clinically critical positives.
- ◆ Determined optimal probability thresholds by maximizing F1-score on the test set.
- ◆ Evaluated model performance using accuracy, precision, recall, F1-score, specificity, and ROC-AUC.

HOBBIES

Tennis, Pickleball, Cooking
