RELEVANT EXPERIENCE

Sparq Compliance | Los Angeles, CA

Regulatory Affairs Intern

Jul 2024-Aug 2024

- Conducted regulatory research, maintained documentation systems, and assisted in developing SOPs in alignment with good documentation practices.
- Designed a cybersecurity compliance template to streamline premarket submissions for software medical devices, referencing FDA Premarket Cybersecurity Guidance and AAMI TIR57.

Relx Healthcare Services India Pvt Ltd | Pune, India

Team Lead - Clinical Pharmacists and Healthcare Advisors

Jan 2023-May 2023

- Led an 8-member team, improving performance by 30% while ensuring customer expectations and project timelines were consistently met.
- Collaborated on the content development, training, and rollout of the medication adherence tool “Care Assist Kit,” demonstrating the ability to meet deadlines, multitask, adapt to changing priorities, and maintain productivity.

Clinical Pharmacist and Healthcare Advisor

Apr 2022-Dec 2022

- Delivered Medication Therapy Management (MTM) to over 200 patients with chronic illnesses, achieving targeted health outcomes within 6 months of enrollment.
- Organized and coordinated 100+ health camps and conducted basic health screenings.

Aditya Birla Memorial Hospital | Pune, India

Clinical Pharmacy Intern

Jan 2021-Jun 2022

- Audited 50+ IPD prescriptions daily, reported ADRs, and contributed to the hospital's Antimicrobial Stewardship Program and NABH internal audits.
- Conducted discharge counseling, planned pharmacotherapies, and evaluated clinical outcomes.

ACADEMIC PROJECTS

Doctor of Pharmacy Thesis

- Designed and executed an ambi-directional observational study analyzing treatment adherence and prescription patterns for secondary prevention in ACS and CCS patients.
- Collected and managed clinical data through source documentation and structured CRFs, performed quality checks, and used descriptive statistics for data analysis.
- Published “Assessment of Prescription Adherence to Secondary Prevention Guideline Recommendations and Patient Adherence to Pharmacotherapy and Lifestyle Modifications in Acute Coronary Syndrome and Chronic Coronary Syndrome Patients” [Journal of the Association of Physicians of India- JAPI](#) (Dec 2022).

Clinical Trial Protocol Writing

- Drafted a clinical trial protocol in compliance with ICH E6, repurposing an FDA-approved drug for a new indication, including study objectives, endpoints, inclusion/exclusion criteria, and statistical design.
