

Omkar Rajendra Nagwekar

Data Engineer

Phone: +1 (216) 770-4131

E-Mail: nagwekaromkar6@gmail.com

Location: Cleveland, OH

SUMMARY

Results-driven Data Engineer with 3+ years of experience in architecting, developing, and deploying scalable machine learning models and robust data pipelines. Highly proficient in Python, SQL, and PL/SQL, with in-depth knowledge of big data technologies such as Hadoop, Apache Spark, and Hive. Adept in ETL processes using tools like SSIS, Apache NiFi, and Kafka to ensure seamless data integration. Expertise in statistical analysis, A/B testing, and performance optimization, with a strong emphasis on cloud platforms including AWS, Azure, and GCP. Skilled in visualizing data insights through Tableau, Power BI, and advanced Excel, with extensive experience managing databases such as MongoDB, MySQL, and PostgreSQL. Proven ability to deliver data-driven solutions in fast-paced environments.

SKILLS

Methodologies: SDLC, Agile, Waterfall

Programming Languages: Python, R, SQL, PL/SQL

IDE's: PyCharm, Jupyter Notebook, Visual Studio Code

Packages: NumPy, Pandas, Matplotlib, SciPy, Scikit-learn, Seaborn, TensorFlow, PyTorch, ggplot2

Big Data Ecosystems: Hadoop, MapReduce, Hive, Apache Spark, Pig, HDFS, HBase

ETL Tools: SSIS, Apache NiFi, Apache Kafka, Talend

Cloud Technologies: AWS, Azure, GCP, DataBricks

Reporting Tools: Tableau, Power BI, SSRS, Advance Excel

Databases: MongoDB, MySQL, SQL Server, Oracle

Other Tools: Git, GitHub, GitLab

Operating Systems: Windows, Linux, Mac

EXPERIENCE

HCL Tech, USA | Data Engineer

Jan 2024 - Current

- o Collaborated with cross-functional teams in Agile environments to design, develop, and implement data solutions, ensuring iterative improvement and rapid delivery of data pipelines and applications.
- o Developed and optimized data pipelines using SSIS, Apache NiFi, and PL/SQL, streamlining data flow and achieving a 40% reduction in processing time while ensuring seamless integration between systems.
- o Utilized Python and libraries such as NumPy, Pandas, Matplotlib, and Scikit-learn to build machine-learning models and perform data analysis, including linear regression, logistic regression, and decision trees.
- o Leveraged Hadoop, MapReduce, and Apache Spark to manage and process large datasets efficiently, improving the scalability and performance of data-driven solutions.
- o Deployed and managed data engineering solutions on Azure, improving data storage and processing reliability by 30% and enhancing system availability and performance.
- o Streamlined data warehouse solutions on Snowflake and Redshift, leading to improved query performance and scalability for analytics workloads.
- o Created interactive dashboards and reports using Tableau and SSRS, delivering real-time insights to business stakeholders.
- o Accomplished and maintained PostgreSQL and Oracle databases, ensuring data integrity and optimizing query performance for efficient data retrieval.

Hexaware Technologies, India | Data Engineer

Jan 2020 - Aug 2022

- o Cooperated in Waterfall development environments, following structured project timelines and clear documentation to ensure project goals were met.
- o Employed Seaborn, TensorFlow, and PyTorch to develop and deploy machine learning models, enhancing predictive accuracy by 25% and creating data visualizations that improved stakeholder insights by 30%.
- o Industrialized and maintained data pipelines using Apache Kafka and Talend, ensuring efficient data integration across multiple platforms.
- o Controlled with Hive, Pig, HDFS, and HBase to process and manage big data, optimizing storage and retrieval processes to improve overall system performance.
- o Leveraged AWS and GCP cloud platforms to deploy scalable, cloud-based data solutions, enhancing system reliability, availability, and operational efficiency.
- o Built interactive dashboards and reports using Power BI and Advanced Excel to provide actionable insights for stakeholders.
- o Built and maintained ETL pipelines using SQL and NoSQL databases (MySQL, MongoDB) to ensure accurate data transformation, loading, and reporting in a timely manner.
- o Collaborated with cross-functional teams to perform A/B testing, statistical analysis, and data validation, driving key business decisions based on data insights.

EDUCATION

Master's In Management Information Systems | Cleveland State University, Cleveland, Ohio

Bachelor Of Engineering In Electronics And Telecommunication | Donbosco Institute Of Technology, Mumbai University
