Data Processing / Data Documentation Specialist

Committed professional with more than 8 years of varied experience in the industry. Skilled in electronic filing systems, data analysis, and various document management technologies. Renowned for exceptional organizational and analytical abilities, with a focus on precise attention to detail. Acknowledged as a reliable and organized individual capable of managing multiple priorities while keeping a positive demeanor. Dedicated to embracing additional responsibilities to enhance team goals and contribute to overall success.

Skills & Abilities

Technical Skills

- Microsoft Office Suite (MS Word, MS Excel, PowerPoint, MS Access, MS Outlook, MS Office 365)
- Others: SQL, Power BI, HTML, Tableau.

Project Management

- Managed projects and stakeholders' expectations by conducting weekly meetings to discuss progress, planned/unplanned work, issues, risks, concerns, and obtain feedback on project teams, and prioritize across stakeholders.
- Led successful engagements collaborating with clients and their Operations & Business groups to deliver key initiatives.

Experience

BetaNXT, Cary, North Carolina.

01/2024 – 06/2024

Tabulation Associate

As a Data Reconciliation Expert, I led the reconciliation department within the Tabulation unit ensuring accurate and efficient processing of votes and reports while consistently adhering to global regulatory standards.

Key responsibilities & achievements during the time are:

- Developed several essential business and operational process documents that outlined the reconciliation of vote tallies with broker reports and ensured the balancing of broker reports within the tabulation unit.
- Developed an escalation process document that outlined common database issues and provided troubleshooting steps.
- Automated reconciliation reports using MS Excel and SQL queries within the tabulation and other databases, ensuring data integrity and security.

EnVu, Cary, North Carolina.

09/2022 – 04/2023

Regulatory Documentation Specialist

During this time, I contributed to a global environmental science initiative for EnVu, a visionary company that offers environmental science services and products across various industries.

Key responsibilities & achievements during the time are:

- Developed process documents and data contracts for new accounts and products related to global environmental science initiative.
- Collaborated with the Documentation Manager and internal teams to ensure timely communication of new product entries to regulatory agencies.
- Automated environmental science reports using SharePoint and Microsoft Dynamics.
- Identified and implemented opportunities to enhance business process flows and productivity by automating error-prone processes and eliminating manual interventions.

Med-El, Durham, North Carolina.

03/2022 – 05/2022

Insurance Liaison Support Specialist

In my role as an Insurance Liaison Support Specialist at Med-El, a medical technology company specializing in hearing implants and devices, I briefly worked in the claims processing department.

Few major highlights are:

- Compiled aggregated healthcare data and processed claims reports for management reviews using HCPCS and ICD-9 codes.
- Oversaw government rebates, ensuring timely tracking of payments with state and federal agencies

Mercalis (Previously TrialCard, Morrisville, North Carolina.**03/2017 – 02/2022****Escalation Specialist**

As an Escalation Specialist at Mercalis, previously known as TrialCard Incorporated, I was part of the healthcare provider division. During this time, I contributed to various initiatives, beginning as a Claims Associate before transitioning to the Escalation Specialist role.

Key responsibilities & achievements during the time are:

- Led the team in prioritizing and resolving escalated user issues to ensure compliance with Service Level Agreements.
- Created an escalation process document that detailed common issues associated with the CRM invoicing systems and included troubleshooting steps.
- Performed data investigations to uncover trends in healthcare operations.
- Created several key functional and operational process documents that outlined the Verification of Benefits (VOB) statements.
- Prepared HIPAA-compliant claims with the correct authorizations and adjusted Patient Monthly Liability in provider claims and NC Tracks.
- Entered and processed Explanation of Benefits (EOB) data into CRM and invoicing systems while managing Verification of Benefits (VOB) statements.
- Documented resolutions in ServiceNow and facilitated communication between Service Operations and Processing Teams, ensuring leadership was kept informed. Reported Adverse Events in accordance with program timelines.
- Analyzed Explanation of Benefits (EOB) statements for various programs.
- Processed claims according to benefit guidelines and reported Pharmacovigilance information as required.
- Ensured claims compliance with company and insurance regulations.
- Handled returned mail and customer correspondences following Standard Operating Procedures (SOPs).

MedFusion, Cary, North Carolina.**11/2016 – 01/2017****Data Specialist**

As a Data Specialist contractor at MedFusion, I worked within the healthcare provider division.

Key responsibilities & achievements during the time are:

- Evaluated data accuracy and updated the Physician's Portal using advanced gathering techniques.
- Compiled and generated spreadsheets from the healthcare database to meet patient and physician requirements, managing medical records and verifying data through trending and benchmarking.
- Reviewed, processed, tracked, and filed Special Invoicing claims submissions.
- Built and validated data models to ensure service quality, filtering data for clarity, and created dashboards for patient demographics records to monitor key performance indicators.
- Utilized various data visualization techniques to present and explain complex data sets.
- Updated and developed scripts and queries to extract and analyze data from multiple sources.

RegEd, Morrisville, North Carolina.**06/2016 – 08/2016****Data Specialist**

As a Data Specialist contractor at RegEd, I worked within the compliance management team.

Key responsibilities & achievements during the time are:

- Led the implementation of business intelligence solutions to enhance operational efficiency.
- Improved documentation for RegEd's Software suite, specifically in Compliance Management and Education, using HTML techniques.
- Worked with Services leadership to create standard and custom reports to meet informational needs.
- Conducted data analysis and developed solutions to aid in timely, data-informed decisions for Services leadership.

IPAS Org, Chapel Hill, North Carolina.**03/2016 – 05/2016****Data Specialist**

As a Budget Analyst Assistant at IPAS, I worked within the compliance & budget management team.

Key responsibilities & achievements during the time are:

- Evaluated source data to identify discrepancies and areas for improvement.
- Managed spreadsheets for the company's active contracts, ensuring data consistency using OneDrive and VB Scripts for easy access by management.
- Monitored budget discrepancies and communicated findings to senior management to enhance reporting efficiency and support budget planning. Additionally, reviewed monthly operations reports to ensure budget compliance and identify necessary adjustments.

Recruitment Specialist

As a Recruitment Specialist at GE Capital, India, I worked for the HR and the recruitment team.

Key responsibilities & achievements during the time are:

- Established relationships with hiring managers to understand current and future hiring needs.
- Interviewed applicants to gather information on their work history, training, and skills, using databases, networking, and referrals to identify qualified candidates.
- Informed potential applicants about the organization's operations, benefits, and career opportunities.
- Screened candidates and conducted reference and background checks for hiring personnel.

Key Recognition

- Awarded multiple "Employee of the Month" from TrialCard for excellence.
- Earned multiple "Letter of Appreciation" awards for successful project execution.

Education

Master in Finance and Economics, Osmania University, India

Post Graduate Diploma: Business Management and Human Resource Management, Osmania University, India

Certifications

- Certification in HIPAA Training from North American Learning Institute
- Manual And Automation Software Testing from H2K Infosys - Atlanta
- Diploma in Advanced Computer Networking from National Institute of Information Technology (NIIT).
