

Padmini Kanumuri

Data Analyst

Nashua, NH | +1 (603) 810 9713 | padmini@quickitmail.com

SUMMARY

Data Analyst with over 4 years of experience transforming raw data into actionable insights that drive business performance and efficiency. Proficient in using Python for data preprocessing, statistical analysis, and data storytelling, leveraging tools like Pandas, NumPy, and Seaborn. Experienced in building dynamic dashboards and performance metrics in Tableau and Power BI to support strategic decision-making. Well-versed in handling end-to-end data workflows and scalable data infrastructure using cloud environments. Strong background in advanced SQL for querying and optimizing datasets across systems like MySQL, PostgreSQL, and Oracle. Recognized for a detail-oriented approach, effective communication with stakeholders, and delivering high-impact analytical solutions across departments.

SKILLS

Methodologies: SDLC, Agile, Waterfall
Programming Languages: Python, R, SAS, SQL, PL/SQL
IDEs: Visual Studio Code, PyCharm, Jupyter Notebook
Packages: NumPy, Pandas, SciPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, ggplot2
ETL Tools: SSIS, SSRS, SSAS, Informatica
Visualization Tools: Tableau, Power BI, Excel (V-lookup, H-lookup, Pivot Tables)
Cloud Technologies: AWS, GCP, Azure
Databases: MySQL, PostgreSQL, SQL Server, Oracle
Version Control Tools: Git, GitHub, GitLab
Other Skills: Data Cleaning, Data Wrangling, Critical Thinking, Communication, Presentation Skills, Problem-Solving, Data Analytics, Decision-making, Data Mining, Data Architecture, Data Management, Data Manipulation, Data Warehousing
Operating Systems: Windows, Linux, Mac

EXPERIENCE

Nexla Aug 2024 - Present
Data Analyst USA

- Employed Python-based tools and SQL to manage end-to-end data operations, including data cleansing, transformation, and synthesis, significantly accelerating analytics workflows.
- Implemented statistical techniques using Python and SAS to develop time-series models and scenario simulations, improving forecasting accuracy by 35% across departments.
- Constructed custom data models and visual analytics using Matplotlib, Plotly, and TensorFlow, uncovering behavioral trends that led to a 25% increase in campaign effectiveness.
- Created BI dashboards and KPI monitoring solutions with Tableau and advanced Excel, reducing reporting turnaround time by 40% and enabling faster executive decision-making.
- Architected and managed cloud-integrated data pipelines using AWS and GCP, increasing data processing speed by 50% and ensuring 99.9% pipeline reliability.
- Detected data quality issues through comprehensive root cause analysis and designed automated checks, supporting reliable and timely reporting for key business metrics.
- Collaborated with cross-functional teams using GitHub to manage code versions, ensuring consistency and transparency across analytics projects.

7 Fin Corp Group Aug 2019 - Nov 2022
Data Analyst India

- Led cross-departmental analytics projects using Agile methodology, facilitating seamless collaboration and accelerating insights delivery cycles by over 25%.
- Applied Python (NumPy, Pandas) and SQL to handle data sourcing, wrangling, and statistical exploration, transforming high-volume datasets into actionable findings.
- Planned intuitive Tableau dashboards to visualize business performance metrics, improving stakeholder understanding and supporting faster executive decision-making.
- Designed and deployed data pipelines using Azure Data Factory and Azure Synapse Analytics, streamlining ETL workflows and reducing data processing time by 40%.
- Tuned and structured PostgreSQL environments for optimal performance, supporting near real-time analytics and enabling faster ad hoc querying.
- Joined and standardized data from multiple sources, applying rigorous transformation logic to ensure uniformity, reliability, and high-quality reporting.
- Delivered tailored Power BI solutions that improved real-time data accessibility by 40%, empowering departments with on-demand analytics and enhancing data-driven decision-making efficiency.
- Automated data validation routines and reporting workflows, minimizing manual errors, boosting accuracy, and enhancing communication of findings to both technical and executive teams.

EDUCATION

Master of Science in Computer Science Dec 2024
Rivier University, Nashua, NH
Bachelor of Engineering in Electrical Engineering Jun 2022
Vishnu Institute of Technology, Andhra Pradesh, India
