

Summary

Healthcare Data & Contract Analyst with 3+ years of experience in provider contract implementation, claims auditing, revenue cycle optimization, and EHR systems (Epic, Cerner). Skilled in SQL, Python, Tableau, Power BI, and REDCap, with proven success in ensuring accurate contract setup, compliant claims processing, and payer reimbursement. Adept at medical coding (ICD-10, CPT, HCPCS, DRG), telehealth analytics, and regulatory compliance (HIPAA, CMS). Seeking to leverage expertise in contract analysis, provider setup audits, and UAT testing to support Centene's mission of improving healthcare delivery.

Education

Master of Science in Information Technology and Management — Jan 2023 - Aug 2024

Campbellsville University, Ky

Skills

Contract & Claims:	Provider Contract Implementation, Claims Auditing, Claims Configuration, Revenue Cycle Management, UAT Testing
Medical Billing & Coding:	ICD-10, CPT, HCPCS, DRG
Data Analysis & Tools:	SQL, Python (Pandas), R, SAS, Excel (Pivot Tables, VBA)
Data Visualization:	Tableau, Power BI
Healthcare Systems:	Epic Systems, Cerner, EHR/EMR, HL7 Standards
Clinical/Pharmacy Tools:	REDCap, CTMS, Medi-Span, RxNorm, Pharmacy Dispensing Systems
Telehealth Platforms:	Teladoc Health, Zoom for Healthcare, Telemedicine Analytics
Regulatory:	HIPAA, CMS, Meaningful Use, MIPS, Pharmacovigilance

Professional Experience

CVS Health - TX, USA — *Clinical Research Analyst* (Sept 2024 - Present)

- Performed UAT testing of provider contracts in Epic EHR and billing workflows, validating fee schedules and claims setup against negotiated terms.
- Audited ICD-10, CPT, and HCPCS coding in claims data, automating validation with Python + RxNorm to reduce claim errors by 15%.
- Conducted revenue cycle and contract analysis, identifying \$150K in missed reimbursement opportunities.
- Reviewed provider setup in Epic to ensure accurate configuration of contract rules, supporting clean claims processing.
- Built Tableau and Power BI dashboards to track contract compliance, reimbursement trends, and provider performance, cutting reporting time by 5+ hrs/month.
- Partnered with provider and pharmacy teams to troubleshoot contract setup discrepancies impacting reimbursement accuracy.
- Ensured HIPAA and CMS compliance by conducting EHR audits and Medi-Span drug interaction reviews.
- Supported clinical trials by monitoring CTMS enrollment and ensuring recruitment aligned with payer contract obligations.

Apollo Clinic- India — *Clinical Data Analyst* (Feb 2020 – Aug 2022)

- Extracted and analyzed **Cerner EMR and billing data** to support CMS quality metrics and payer contract reporting.
- Built Power BI dashboards to monitor **contract compliance, claims payment accuracy, and charge capture**, recovering \$50K in underpayments.
- Automated **CPT and HCPCS coding validation** against payer reimbursement rules, reducing manual review time by 25%.
- Conducted **contract-related claims audits**, ensuring accurate provider setup and claims processing.
- Analyzed telehealth and REDCap program data, contributing to a 10% increase in virtual appointment adoption.
- Maintained HL7 interoperability standards to ensure contract-driven data exchange and regulatory compliance.
- Developed Excel VBA tools for formulary compliance and adverse event reporting, saving 4 hrs/week in contract compliance tasks.
- Collaborated with revenue cycle, pharmacy, and provider teams to **resolve contract discrepancies** impacting claims payment and reimbursement.
