SUMMARY

- **Four-year** experience in designing and deploying **scalable data pipelines**, handling complex data integration in diverse cloud platforms
- Skilled in deploying and managing **Relational** and **NoSQL** databases, leveraging **Elasticsearch** for fast searching and analytics across datasets, integrating these technologies within cloud-based data pipelines for enhanced data accessibility and analysis
- **Robust technical acumen** in leveraging big data technologies such as **Hadoop** for distributed data management, **Spark** for efficient processing of large datasets in cluster environments, and **Kafka** for high-throughput real-time data streaming
- Specialized in optimizing ETL processes and data pipeline performance through meticulous tuning of **Hadoop clusters** and **Spark jobs**, ensuring minimal latency and maximum throughput in data operations

SKILLS

Methodologies:	Agile, Waterfall
Language:	Python, Scala, SQL
ETL Tools:	Informatica, Talend, Alteryx
Databases:	MySQL, PostgreSQL, MongoDB, Snowflake, Oracle, Redshift
Big Data technologies:	Apache Spark, Hadoop, Kafka, Airflow
Tools:	Power Bi, Tableau, Git, Ansible, Chef, Eclipse, Jupyter Notebook, Cloud endure, Jira
Cloud Services:	AWS (S3, Glue, Lambda), Azure (Data Factory, Synapse Analytics), GCP (BigQuery)
Other Skills:	Data Pipeline Orchestration, Data Warehousing, Data Modeling, Data Visualization
Certifications:	IBM Data Engineering Professional (Link), Google Analytics

EXPERIENCE

Berkshire Hathaway | USA

Data Engineer

| Sep 2024 – Present

- Developed and integrated real-time dashboards by seamlessly connecting **Tableau with SQL databases** and various cloud platforms, providing executives with actionable insights that **improved** financial performance and market trend analysis
- Designed and maintained high-performance data pipelines utilizing AWS S3, Glue, Lambda, and Redshift, achieving a **30% boost** in the efficiency of ingesting and processing high-volume financial datasets
- Engineered a data synchronization framework using **Pandas** and **SQL Server Integration Services**, which enhanced the consolidation of disparate financial data streams into a centralized warehouse, **improving** data accuracy and timeliness for risk assessment and portfolio management by **35%**
- Refined **CI/CD deployment** strategy by incorporating **GitLab** for version control, **Docker** for containerization, and **Kubernetes** for orchestration, which streamlined the entire lifecycle of financial data pipeline deployments, **increasing deployment efficiency and operational agility by 40%**
- Monitored and debugged ETL workflows daily to identify and resolve anomalies, improving the reliability of the data pipeline and ensuring a **15% decrease in data processing errors**, contributing to system optimization and overall performance
- Collaborated with team, project manager and clients to gather business requirements and streamline data workflows, ensuring alignment with organizational goals and client needs resulting in a **15% improvement in project delivery time**

Aplus Datalytics | India

Data Engineer

| Jan 2019 – Aug 2022

- Developed and seamlessly integrated a machine learning pipeline using AWS SageMaker and Azure ML into the existing data architecture, **enhancing predictive analytics accuracy by 15%**
- Designed and enforced a data governance framework leveraging **Collibra** and **Apache Atlas**, improving metadata management and data quality **by 20%**
- Enhanced the data lake architecture with Amazon **Redshift Spectrum** and **Azure Synapse Analytics**, achieving a 30% increase in data processing efficiency through optimized partitioning and indexing
- Implemented a robust **multi-cloud data management strategy** utilizing AWS RDS, Azure SQL Database, and Google Cloud Spanner, which increased system resilience and operational uptime **by 25%**, ensuring high availability and disaster recovery
- Translated business requirements into tailored reports and dashboards using **Power BI**, delivering actionable insights on KPIs such as click-through rate (**increased by 10%**), operational efficiency (**boosted by 8%**), and revenue growth (**up by 12%**)

EDUCATION

Pace University, New York City, NY | Master of Science in Information Systems

| May 2024

Mumbai University, Mumbai, India | Bachelor of Technology in Electronics and Telecommunications

| May 2020
