

Parthavi Patel

Full Stack Developer | Python | Django | React | AWS

Jersey City, NJ | +1 (929) 483-7176 | parthavi.co@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Detail-oriented Python Full Stack Developer with over 6 years of experience designing, developing, and deploying scalable web applications across e-commerce, ERP, and financial systems. Proficient in **Django, FastAPI, React.js, Redux, Material UI, Bootstrap, AWS**, and **PostgreSQL**, with hands-on expertise in Python libraries such as **Pandas, NumPy, Matplotlib**, and **SQLAlchemy** for data processing, analysis, and visualization. Proven track record of building robust APIs, optimizing application performance, and integrating cloud services. Successfully reduced infrastructure costs by 30% and cut deployment times by 40% through Dockerized CI/CD pipelines. Known for delivering production-grade solutions, mentoring teams, and thriving in Agile environments. Seeking to contribute impactful software solutions within dynamic, cross-functional teams.

CORE COMPETENCIES

Languages: Python, JavaScript (ES6+), SQL, HTML5, CSS3

Backend Frameworks: Django, Flask, FastAPI, Node.js

Frontend: React.js, Next.js, Redux, Bootstrap, jQuery, DataTables

Databases: PostgreSQL, MySQL, MongoDB, Redis, Snowflake

Cloud & DevOps: AWS (Lambda, S3, EC2), Docker, Jenkins, GitHub Actions

Testing: PyTest, UnitTest, Postman, Selenium

Others: Pandas, Snowpark, Agile/Scrum, RESTful APIs, Microservices, OAuth2, JWT, OKTA

Soft Skills: Problem-solving, Team Collaboration, Mentorship, Clear Communication

WORK EXPERIENCE

Capgemini

Full Stack Developer

United States

June 2024 – Present

- Developed RESTful APIs for order, payment, and user auth systems using FastAPI and Django, improving backend reliability.
- Integrated AWS Lambda & EC2 for microservice hosting, reducing cloud infrastructure costs by 30%.
- Streamlined deployments using Docker and Jenkins, reducing delivery time by 40%.
- Created real-time analytics dashboards in Pandas and PostgreSQL, enabling sales tracking and decision-making.
- Increased test coverage by 70% using PyTest, contributing to stable releases and faster debugging cycles.
- Mentored junior devs and led Agile ceremonies, boosting team efficiency and delivery velocity.

Odoo

Python Full Stack Developer

India

Mar 2020 – Dec 2022

- Developed custom ERP modules in Django, improving reporting speed by 50%.
- Designed Python-based data pipelines and integrated 3rd-party vendor APIs for automation.
- Re-engineered legacy code by replacing PHP backend with Flask microservices, improving system maintainability.
- Implemented secure login with OKTA & JWT, ensuring GDPR-compliant access control.
- Optimized MongoDB schema designs and reduced query time by 40% through indexing and normalization.

LogicGo Infotech

Jr. Full Stack Developer

India

June 2018 – Feb 2020

- Created frontend components using HTML, CSS, JavaScript, Bootstrap, improving UX across client sites.
- Developed backend services in Django with PostgreSQL, enabling seamless CRUD operations.
- Supported cart management and product display features using jQuery and DataTables.
- Automated EC2 deployment scripts using Bash/Python, improving team productivity by 25%.
- Collaborated on JIRA boards and Agile sprints, contributing to timely releases and bug fixes.

CERTIFICATIONS & ACHIEVEMENTS

- Python and Django Full Stack Developer Bootcamp | Udemy - June 2024
- Kaggle Competition Child Mind Institute - Problematic Internet Use | Dec 2024

EDUCATION

Master of Science - Computer Science
Long Island University

Jan 2023 – Dec 2024
USA

Bachelor of Technology - Computer Engineering
Ganpat University

Jun 2014 – Jun 2018
India
