Work Experience

Technical Product Specialist

OmniMetrix-Buford, GA

February 2024 to Present

Provide expert support throughout the full product lifecycle for OmniMetrix's IoT devices, including installation, troubleshooting, and optimization of both IoT devices and the OmniView platform-a proprietary software used to monitor and manage residential and commercial power generators.

- **Lifecycle Expertise:** Leveraged deep understanding of the product lifecycle to manage and support the installation, deployment, and ongoing optimization of IoT devices and OmniView software, ensuring customers have continuous, seamless service from start to finish.
- **On-Site Support:** Assisted field technicians with troubleshooting, device installations, and network configurations, providing real-time support to resolve technical issues and optimize system performance, ensuring seamless connectivity between devices and the OmniView platform.
- **Training & Empowerment:** Delivered comprehensive, lifecycle-focused training to customers on the OmniView platform, enabling them to effectively configure, monitor, and manage their power generation systems throughout their entire service lifespan.
- **Case Management & Support:** Managed technical support cases using Salesforce and HubSpot, ensuring swift resolution of issues via chat, email, and phone. Integrated third-party tools, including Slooce, SendGrid, Outlook, Excel, MS Teams, SharePoint, SalesMsg, and KORE, to streamline workflows and enhance product functionality.
- **Collaboration with Engineering:** Partnered closely with engineering teams to address complex issues, providing feedback to drive continuous improvement in device performance and software functionality, aligned with customer needs throughout the product's lifecycle.
- **Proactive Customer Account Management:** Managed customer accounts with a proactive approach, ensuring timely product updates, resolving issues, and optimizing the system's overall performance to enhance user experience at every stage of the customer journey.

Technical Support Specialist

CableWholesale-Atlanta, GA

November 2021 to January 2024

- **Specialized in troubleshooting and resolving complex technical issues** related to Ethernet, fiber optics, coaxial, video systems, and phone systems, utilizing a proprietary CRM system to manage customer interactions via phone, chat, and email.
- **Cross-sold networking products**, including IoT, fiber optics, Ethernet, and coaxial cables, driving revenue growth by identifying customer needs and recommending tailored solutions.

- Managed customer accounts, processed RFQs, and tracked sales opportunities in CRM, ensuring timely follow-up and efficient account management.

Technical Service Representative

Support.com, Comcast, WiPro-Atlanta, GA
February 2016 to April 2021

- Delivered remote technical support and troubleshooting for clients such as Comcast, WiPro, and BestBuy, addressing software issues, networking problems, and PC-related concerns to ensure seamless operations and high customer satisfaction.
- Provided network support, including diagnosing and resolving connectivity issues, configuring routers, and managing network security, improving system uptime and performance.
- Offering technical sales support, advising clients on appropriate hardware and software solutions to enhance network infrastructure and IT capabilities, contributing to product adoption and customer retention.

Skills

- **Microsoft 365 Suite** – Proficient in Excel, Outlook, SharePoint, Teams, and Word for collaboration and reporting
- **Communication & Collaboration** – Strong active listening, customer empathy, and cross-functional team coordination
- **Technical Support & Troubleshooting** – Extensive experience with IoT systems, networking, software issues, and hardware diagnostics
- **AWS Cloud Services** – Skilled in cloud infrastructure, service deployment, and cloud migration strategies (AWS Certified Solutions Architect)
- **Customer Support & Training** – Adept at understanding user needs and delivering clear, technical solutions across chat, phone, and email
- **Software & Network Troubleshooting** – Expertise in resolving software bugs, connectivity issues, and remote diagnostics
- **Microsoft Azure Administration** – Managing virtual machines, storage, and identity services (Azure Administrator Certified)
- **Cloud Tools & Platforms** – Integrated use of Salesforce, HubSpot, Slooce, SendGrid, SalesMsg, and KORE IoT for workflow and product enhancement
- **Electrical & Connectivity Troubleshooting** – Hands-on experience with generator systems, Ethernet, coaxial, and fiber optic infrastructure
