Professional Summary

Entry-level Software Engineer with 800+ hours of full-stack experience in Java, Python, and JavaScript, with strong foundations in object-oriented programming, data structures, and algorithms. Skilled in both frontend (React, HTML, CSS, JavaScript) and backend (Java, Spring Boot, SQL) development, with additional exposure to cloud platforms (AWS) and Agile teamwork. Graduate of Tech Elevator Java Development Bootcamp and Harvard CS50.

Technical Skills

Languages: Java, Python, JavaScript, HTML, CSS, SQL, C++

Frameworks: React, Spring Boot, Flask

Databases: PostgreSQL, SQLite

Concepts: OOP, Data Structures & Algorithms, REST APIs, Agile Development, Cloud Fundamentals (AWS)

Tools: Git, IntelliJ, JUnit, JDBC, Docker (learning)

Technical Projects

Capstone – Full-Stack Web App

- Developed Java Spring Boot backend + React frontend with PostgreSQL.
- Wrote REST APIs and implemented object-oriented design patterns in Agile team sprints.
- Practiced Git version control, peer review, and documentation.

Task Management Web App

- Built CRUD workflows with Python Flask + SQLite, including authentication and secure APIs.
- Debugged issues and optimized performance for real-time task updates.

C++ Binary Search Tree

- Implemented data structure algorithms with $O(\log n)$ operations.
- Demonstrated recursion, tree balancing, and algorithmic problem-solving.

Professional Experience

Front of House Team Member | Pinthouse Pizza | Jul 2021 – Mar 2025

- Managed 300–400 guest interactions daily, ensuring service quality in a high-volume environment.
- Demonstrated problem-solving, adaptability, and multitasking under pressure.

Certified Personal Trainer | Undefeated Tribe | Jan 2024 – Jun 2024

- Designed fitness programs using client data and performance tracking, improving outcomes by 40%.
- Delivered customized training frameworks, boosting client performance metrics by 60%.
- Applied user-focused design principles to enhance experience and results.

Education

Tech Elevator | Full-Stack Java Development Bootcamp | Jan 2025 – May 2025

- 800+ hours of hands-on training in Java, Spring Boot, SQL, JavaScript, React, HTML, and CSS.

Austin Community College | Associate of Science in Computer Science | Aug 2018 – Dec 2022

- Coursework in software development, algorithms, and data structures with practical projects.

Harvard University (edX) | CS50: Introduction to Computer Science | 2023

- Learned C, Python, SQL, and web technologies while completing problem sets and a final project.
