LinkedIn: [linkedin.com/in/pavan-krishna-vunnam-7b3909219](https://www.linkedin.com/in/pavan-krishna-vunnam-7b3909219)

PROFESSIONAL SUMMARY

Detail-oriented M.S. in Computer Science candidate with proven experience in data analysis, dashboard creation, and statistical modeling. Skilled in turning complex datasets into actionable insights using Python, SQL, Power BI, and Tableau. Adept at identifying trends, optimizing processes, and effectively communicating results to drive informed business decisions.

CORE SKILLS

Data Analysis & Tools: Python (Pandas, NumPy, Matplotlib), SQL, Excel (PivotTables, VLOOKUP)

BI & Visualization: Power BI, Tableau, Matplotlib, Seaborn

Databases & Cloud: MySQL, Azure, GitHub, Jupyter Notebooks

Statistical Techniques: Regression Models, Hypothesis Testing, A/B Testing, Data Mining, EDA

PROFESSIONAL EXPERIENCE

Data Analyst

Aionix11, New Haven, CT | Aug 2025 – Present

- Engineered and optimized ETL pipelines to extract, transform, and load structured and unstructured datasets.
- Wrote complex SQL queries and stored procedures for data extraction, aggregation, and performance tuning.
- Applied Python for statistical analysis, data preprocessing, and predictive modeling.
- Designed and deployed interactive dashboards in Power BI/Tableau, enabling real-time KPI monitoring and business insights.

Tutor – Statistics

University of Bridgeport – Bridgeport, CT, USA | Sept 2023 – April 2024

- Tutored undergraduate students in statistics coursework.
- Developed strong interpersonal and communication skills.
- Simplified and explained complex statistical concepts for better understanding.

Junior Data Analyst

Compsoft Technologies – Bangalore, India | Jan 2023 – July 2023

- Collected, cleaned, and analyzed datasets from e-commerce to identify business trends.
- Designed interactive dashboards in Power BI to track KPIs and product performance.
- Conducted trend analysis and regression modeling to forecast customer engagement patterns.
- Developed Python automation scripts for ETL processes, reducing reporting time by 40%.
- Managed MySQL databases for storing and querying analytical datasets.

Data Analyst Intern

DataVision Analytics – Bangalore, India | Aug 2022 – Dec 2022

- Collected, cleaned, and transformed datasets from multiple sources to ensure accuracy and consistency.
- Created Excel dashboards with PivotTables, slicers, and visual charts to monitor KPIs.
- Developed and optimized SQL queries for data retrieval, aggregation, and trend analysis.
- Conducted exploratory data analysis (EDA) using Python (Pandas, NumPy, Matplotlib) to identify patterns and anomalies.

IoT & Embedded Systems Intern

Institute of Electrical and Electronics Engineers – Bangalore, India | April 2022 – July 2022

- Designed and developed embedded systems using Arduino and Raspberry Pi.
 - Programmed Arduino and ESP8266 in Embedded C for real-time sensor control.
 - Debugged hardware and performed IoT system troubleshooting.
-

EDUCATION

M.S. in Computer Science University of Bridgeport – Bridgeport, CT | September 2023- May 2025

B.E. in Electronics & Communication Eng Atria Institute of Technology – Bangalore, India | Aug2019–Mar2023

PROJECTS

- **Customer Purchase Behavior Analysis** (Compsoft Technologies)
Analyzed customer transaction data using Python and SQL to identify high-value customer segments and seasonal buying patterns. Designed Power BI dashboard to visualize results, improving targeted marketing ROI by 18%.
 - **E-Commerce Price Tracker – Price Pulse**
Built a web scraper to collect product pricing data, performed time-series analysis to identify trends, and generated automated alerts for significant price changes. Visualized insights using Matplotlib and stored data in MySQL.
 - **Sales Performance Dashboard** (DataVision Analytics)
Developed an interactive Power BI dashboard to track sales KPIs, revenue growth, and regional performance. Automated monthly report generation, reducing manual reporting efforts by 40%.
 - **StoreMyResults.com – Academic Performance Analytics**
Created a SQL-backed dashboard to track student results and identify performance trends over time. Enabled administrators to filter and view insights by department, year, and subject.
 - **Smart Water Monitoring System**
Collected and analyzed real-time sensor data on water quality and usage, identifying consumption patterns to recommend optimization strategies.
-

LEADERSHIP & ACTIVITIES

Publicity Lead – Women in Engineering (IEEE)

Atria Institute of Technology – Bangalore, India | Mar 2022 – May 2023

- Implemented publicity strategies to promote WIE initiatives. Designed marketing materials using Adobe Creative Suite and Canva, Led event promotion campaigns within the IEEE community.

IT End User Support

American Red Cross, NHQ EUS Team | Aug 2025

- Provided technical support for desktops, laptops, printers, and network equipment. Utilized ITSM ticketing systems to track and resolve end-user requests.
