

PROFESSIONAL SUMMARY

Data Science professional with **2+ years of experience** in statistical analysis, business intelligence, and ETL processes. Expert in **Tableau** and **Excel** for creating data visualizations that drive **business performance**. Proficient in **R** for statistical modeling and **Agile** methodologies for **project management**. Strong background in **business analysis** with proven ability to translate complex data into actionable insights. Skilled in designing ETL pipelines that improve data quality by 30%+. Excellent **communication skills** for collaborating with **cross-functional** teams and presenting findings to stakeholders. Recognized for **detail-oriented** approach and innovative **problem-solving** in data-driven environments.

PROFESSIONAL EXPERIENCE

University of North Texas

September 2023 – December 2024

Data Analyst

Denton, Texas

- Applied **statistical analysis** using **R** and Python to identify trends in large datasets, improving reporting accuracy by 25% and supporting data-driven decision making
- Developed interactive **Tableau** dashboards that visualized key performance metrics, reducing time-to-insight by 40% for business stakeholders
- Implemented **ETL** processes to automate data workflows, reducing manual processing time by 30 hours/month while maintaining 99% data accuracy
- Conducted **business analysis** within an **Agile** framework, collaborating with **cross-functional** teams to deliver 15+ reports that improved operational efficiency

Mindtree

August 2022 – July 2023

Data Analyst

Hyderabad, India

- Optimized **Excel** models and VBA scripts that automated monthly reporting, saving 20+ hours monthly and reducing errors by 35%
- Performed root cause analysis using **problem-solving** methodologies, resolving 95% of data quality issues within SLA timelines
- Managed end-to-end **project management** for data migration initiative, delivering the project 2 weeks ahead of schedule with 100% data integrity
- Created detailed documentation for all analytical processes, improving team onboarding efficiency by 40% and knowledge transfer effectiveness

Hawlett Packard Enterprise

January 2022 – June 2022

Data Analyst

Chennai, India

- Designed SQL queries and **Excel** macros that streamlined financial reporting, reducing generation time from 8 hours to 45 minutes weekly
- Applied **data science** techniques to customer behavior analysis, identifying 3 key segments that drove 15% increase in campaign ROI
- Developed **detail-oriented** quality control processes that improved data accuracy from 92% to 99.8% across all reports
- Facilitated requirements gathering sessions with 10+ departments, demonstrating strong **communication skills** in translating business needs to technical specs

SKILLS

Data Science & Analytics: R, Python, Statistical Analysis, Predictive Modeling, Data Mining, Machine Learning

Business Intelligence: Tableau, Power BI, Excel (Advanced), VBA, Dashboard Development, KPI Tracking

Data Engineering: ETL Processes, SQL, Azure Data Factory, Data Warehousing, Data Quality Assurance

Business Skills: Business Analysis, Project Management, Agile Methodologies, Cross-functional Collaboration

Soft Skills: Problem-solving, Communication, Detail-oriented, Analytical Thinking, Requirements Gathering

EDUCATION

University of North Texas

Aug 2023 – May 2025

Master of Science in Business analytics GPA: 3.78/4.00

Denton, Texas

ACADEMIC PROJECTS

Admission Decision Making Process | Python, Azure, Apache Spark, Power BI, MySQL

- Developed ETL pipeline processing 50,000+ records with 99.9% accuracy, demonstrating strong **data science** and **problem-solving** skills
- Created Tableau dashboards that reduced admission committee decision time by 30% through intuitive data visualization

Analysis of Recession using Machine Learning | Python, Machine Learning Techniques, SQL, Pandas

- Applied **statistical analysis** and time series forecasting to economic indicators, achieving 88% prediction accuracy for recession signals
- Presented findings to faculty panel, demonstrating **communication skills** in explaining complex models to non-technical audience

CERTIFICATIONS

- AWS Cloud Practitioner
- AZ 900 - Azure Fundamentals, Certified from Microsoft
- Tableau Desktop Specialist
