

PAVANI PERAMBUDUR

Business Analyst

Ph: +1 (334) 895-3729 | Email: pavaniperambudur@careerattainment.com | www.linkedin.com/in/pavani-perambudur/

PROFESSIONAL SUMMARY

Data-driven Business Analyst with 3+ years of hands-on experience supporting decision-making across management and analytics teams. I am skilled in gathering and analyzing business requirements, creating functional documentation, and translating complex data into actionable insights. Proficient in SQL and Python (Pandas, NumPy) for data analysis, and experienced in building interactive dashboards using Power BI, Tableau, and Excel. Adept at writing BRDs and FRDs, managing user stories and backlog in Agile environments, and supporting QA through UAT and process documentation. Known for effectively collaborating with cross-functional stakeholders and delivering solutions that improve operational efficiency and drive business value.

TECHNICAL SKILLS

Languages:	Python (Pandas, NumPy, Matplotlib), SQL (T-SQL)
Databases:	MySQL, PostgreSQL, SQL Server
Documentation:	BRD, FRD, SRS, Process Flow Diagrams, User Stories
Business Intelligence Tools:	Tableau, Power BI, Alteryx, Qlik, SSRS, Advanced Excel
Analysis Techniques:	Cost/benefit Analysis, GAP Analysis, Impact Analysis, Risk Analysis, SWOT Analysis
Project Management Tools:	Jira, Confluence, Rally, SharePoint
Cloud & Integration Tools:	AWS (S3, EC2, RDS)
Other Tools:	ERPs, CRMs, MS Office suite, Jupyter Notebook, UAT
Methodologies:	SDLC, Agile, Scrum, Kanban, Waterfall

PROFESSIONAL EXPERIENCE

Business Analyst | Lumen Technologies, USA

Jan 2025 – Present

- Analyzed customer transaction patterns and financial product usage using SQL, uncovering insights that led to an improvement in client retention and enhanced onboarding strategies.
- Collaborated with cross-functional teams to gather, define, and document business requirements, translating them into actionable tasks for development teams and aligning solutions with business goals.
- Designed and deployed interactive dashboards in Power BI to provide real-time visibility into key KPIs, improving stakeholder decision-making and product performance tracking.
- Enhanced CRM system functionality by integrating third-party applications, delivering real-time insights to sales and support teams, resulting in improved operational efficiency and customer engagement.
- Streamlined and optimized existing database queries, reducing data retrieval time and contributing to faster, more efficient workflows across internal teams.
- Partnered with stakeholders and product managers to create clear and compliant business and functional requirement documents (BRDs, FRDs), supporting Agile project delivery and regulatory alignment.

Business Analyst | HCL Tech, India

Oct 2020 – Jul 2023

- Led a cross-functional team of developers and analysts to implement critical database updates, improving project efficiency and ensuring adherence to quality and compliance standards.
- Leveraged Python for data preprocessing and validation, identifying data inconsistencies, which cut user-reported issues and improved overall data reliability.
- Created interactive dashboards in Power BI and Tableau to visualize key financial and operational metrics, enabling timely, data-driven decision-making for senior stakeholders.
- Managed and optimized financial datasets in SQL Server, enhancing query performance and reducing report generation time through improved indexing and standardized database processes.
- Applied UML methodologies to develop use case diagrams, activity flows, sequence diagrams, ER diagrams, and data mapping schemas to support system design and requirements gathering.
- Utilized Microsoft Visio to model business processes and system workflows, contributing to streamlined documentation and improved communication between business and technical teams.
- Acted as a Subject Matter Expert (SME), facilitating collaboration between business stakeholders and development teams to define solutions aligned with organizational goals and regulatory requirements.
- Partnered with finance, compliance, and product teams to deliver key insights during Quarterly Business Reviews (QBRs), presenting actionable recommendations that improved product adoption and customer satisfaction.

EDUCATION

Master of Science: Management Information Systems

Auburn University at Montgomery

August 2023 - May 2025

Montgomery, AL
