Work Authorization: F1 OPT (Eligible to work in the U.S. without employer sponsorship during OPT period)

PROFESSIONAL SUMMARY

Results-driven Senior Data Analyst with 4+ years of experience leveraging data to drive strategic decisions and revenue growth across financial services, technology, and healthcare sectors. Proven success in developing data-driven insights, predictive models, and automated ETL workflows that enhance performance and customer experience. Highly skilled in SQL, Python, Tableau, Power BI, and cloud platforms (AWS, Azure, Snowflake). Adept at collaborating cross-functionally with stakeholders, leading end-to-end analytics initiatives, and building scalable solutions that translate business questions into actionable insights.

CORE COMPETENCIES

Analytics & BI: Tableau, Power BI, Looker, Excel (Pivot Tables, VBA, Power Query)

Programming & Data Processing: Python (Pandas, NumPy, Scikit-learn), R, SQL, PL/SQL

ETL & Data Engineering: Alteryx, Informatica, SSIS, Azure Data Factory, BigQuery

Cloud & Databases: Snowflake, AWS (S3, Redshift), Google Cloud (BigQuery), Azure (Data Lake)

Big Data: Hadoop, Spark, Kafka

Machine Learning: Predictive Modeling, Forecasting, A/B Testing, Clustering, Regression

Project Management: Agile, SDLC, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Senior Data Analyst | PNC Financial Services | St. Charles, MO | Jan 2025 – Present

- Lead analytics projects supporting revenue growth and customer engagement, providing actionable insights to executive leadership.
- Designed and implemented ETL pipelines using Informatica, Alteryx, and BigQuery, optimizing data flow and improving accuracy by 30%.
- Developed predictive forecasting models and business performance dashboards in Tableau and Power BI to monitor key financial metrics.
- Automated data ingestion and transformation workflows in Python and SQL, reducing manual effort by 40%.
- Integrated Snowflake and AWS S3 for data warehousing and reporting, enabling real-time data availability across business units.
- Partnered with business stakeholders to translate requirements into technical solutions that improved data-driven decision-making.

Senior Data Analyst | CBRE Group | St. Louis, MO | Jun 2024 – Dec 2024

- Interpreted and visualized large datasets to support business intelligence and operational optimization.
- Built and maintained Power BI and Tableau dashboards tracking KPIs across business units.
- Designed data pipelines with SSIS and Azure Data Factory to automate reporting workflows, increasing efficiency by 25%.
- Conducted EDA using Python to uncover patterns and anomalies.
- Led ML initiatives for customer segmentation and forecasting, improving retention by 12%.

Data Analyst | GE HealthCare | Bengaluru, India | Oct 2021 – Jun 2023

- Supported data warehouse and business intelligence projects for global healthcare operations.
- Designed and optimized ETL workflows using Informatica, Alteryx, and Python; improved efficiency by 35%.
- Developed dashboards in Tableau and Power BI to track device usage and sales performance.
- Implemented data quality and cleansing frameworks to ensure data accuracy.

Programmer Analyst | AXA XL | Bengaluru, India | Mar 2020 – Sep 2021

- Developed Power BI dashboards enabling real-time KPI tracking for insurance portfolios.
- Built ETL pipelines integrating 30+ data sources into Snowflake and Azure.
- Created fraud detection models using Scikit-learn, reducing false claims by 22%.
- Implemented automated test scripts ensuring data integrity and compliance.

EDUCATION

Master of Science in Computer Science – University of Central Missouri, Warrensburg, MO
(Expected 2025)

CERTIFICATIONS

- Microsoft Power BI Data Analyst (PL-300)
- Tableau Desktop Specialist
- AWS Cloud Practitioner (Foundational)
