SUMMARY:

- Procurement and SAP implementation expert with over 4 years of experience, specializing in Manufacturing, Business Processes, and SAP Material Management (SAP MM).
- Proficient in strategic sourcing, supply management, and contract negotiation. I am skilled in procurement processes P2P (RFP, RFQ, RFI), and inventory management. Strong financial acumen and proficiency in data analysis using BI tools. Effective in cross-functional collaboration and project management.
- Extensive experience in SAP implementation, particularly in Manufacturing, Business Processes, and SAP Material Management (SAP MM). - Skilled in contract negotiation, supply management, and strategic sourcing providing cost-effective procurement solutions.
- Well-versed in procurement processes, including RFPs (Request for Proposals), RFQs (Requests for Quotations), and RFIs (Requests for Information), with experience in both the P2P (Procure-to-Pay) and I2P (Invoice-to-Pay) cycles. Additionally, knowledgeable in O2C (Order-to-Cash) processes, ensuring smooth and efficient operations.
- Skilled in inventory management and continuous improvement, driving optimization in supply chain operations.
- Adept at leveraging business intelligence (BI) tools and software for data analysis, enabling informed decision-making.
- Effective collaboration with cross-functional teams, excelling in project management and documentation.
- Strong financial acumen with experience in budget management and cost control. - Proficient in Microsoft Office, with a particular strength in Excel for detailed data analysis.
- Experienced in contract management and skilled in enterprise resource planning (ERP) systems.
- Consolidated commodity needs and actively participated in commodity strategy and panel development.
- Proficiency in SAP Ariba is a valuable skill that can enhance one's abilities in procurement and supplier management.
- Familiarity with Oracle NetSuite contributes to a broader range of expertise in procurement tools and systems.
- Excels in management roles and has a strong background in sales and pricing strategy.
- Proficient in Microsoft Excel, with a strong emphasis on advanced functions like Macros for automating tasks, Pivot Tables for data analysis, VLOOKUPS for precise data retrieval, and IF clauses for logical decision-making.
- Proficient in extracting, transforming, and loading (ETL) data from various sources into Excel for comprehensive analysis, ensuring data accuracy and consistency.

TECHNICAL SUMMARY: -

Technical Skills	Tools and Software
SAP Expertise	SAP MM, SAP SRM, SAP PP, SAP S4 HANA, SAP Ariba
ERP Systems	PeopleSoft, Oracle NetSuite, SAP Fieldglass
Data Analysis	Microsoft Excel (Macros, Pivot Tables, VLOOKUP, IF Clauses), Power BI, Tableau
Database	SQL, MySQL
Other Software	MS Dynamics, Lotus Notes, Netscape Navigator
Procurement Tools	Coupa, P2P, I2P, O2C
Business Intelligence	Data Extraction, Business Intelligence Tools
Project Management	MS Office (Excel, OneNote)
Languages	ABAP

PROFESSIONAL EXPERIENCE:

Supply chain

Thermo Fisher Scientific Cincinnati, OH

Jan 2025 – Present

Responsibilities:

- Proficiently managed and maintained SAP S4 HANA master data, ensuring precision and consistency in contracts, purchase orders, vendor masters, materials, and pricing conditions.
- Skillfully monitored SAP Procure-to-Pay (P2P) and Order-to-Cash (O2C) transactions, proactively identifying and resolving issues for seamless operations.
- Demonstrated expertise in resolving Accounts Payable (AP) and Accounts Receivable (AR) discrepancies, collaborating effectively with cross-functional stakeholders.
- Streamlined claims processing for product returns and quality issues, ensuring minimal disruption and showcasing strong SAP process understanding.
- Provided critical support for SOX compliance, meticulously monitoring SAP transaction issues, and ensuring the integrity of procurement data.
- Worked extensively with MM, QM, SD, and FI teams on PP integration aspects, contributing to enhanced inter-departmental coordination and streamlined processes.
- Efficiently managed the vendor order process, overseeing purchase orders and purchase requests to maintain optimal procurement workflows.
- Conducted thorough invoice verification and maintained a comprehensive goods issue tracker, contributing to error-free financial transactions.
- Addressed material-related challenges by creating new material numbers, extending plant data, and strategically establishing pricing conditions, driving procurement efficiency.
- Developed and maintained comprehensive documentation and process notes to facilitate knowledge transfer and streamline training processes.
- Leveraged SAP expertise for data extraction and employed advanced skills in VLOOKUP and Power BI for data analysis and visualization, enabling informed decision-making.
- Achievements:
- Successfully identified and implemented cost-saving measures, resulting in a 7% reduction in procurement expenditure during the short-term contract.
- Led successful deployment waves, providing on-site support to Super Users during SAP S/4 HANA implementation.
- Collaborated with the Core Solution Team to address functional topics, ensuring seamless integration and addressing system-related challenges.

Environment: Purchasing, I2P, S2P, P2P, O2C, SAP ERP, S/4 HANA, SAP MM, MS Office

Procurement Data Analyst

ConocoPhillips Houston, Texas

Jan 2024 – Dec 2024

Responsibilities:

- Developed and maintained relationships with suppliers, negotiating optimal pricing and terms, resulting in cost savings.
- Managed procurement requests, purchase orders, and supplier contracts in compliance with company policies.
- Conducted supplier evaluations, audits, and market research, leading to improved supplier performance and cost-effectiveness.
- Worked closely with inventory management to optimize inventory levels, preventing stock-outs, and ensuring product availability.

- Enforced procurement and financial policies, conducting audits to ensure compliance, and recommending corrective actions.
- Utilized MySQL and Tableau for data analysis, providing valuable insights for business opportunities and projects.
- Analyzed sales and inventory trends, adjusted realign accounts and optimized inventory levels.
- Collaborated with cross-functional teams to implement process improvements, enhancing efficiency, and reducing costs.
- Maintained accurate records and documentation of inventory transactions, ensuring data integrity.
- Demonstrated expertise in Microsoft Excel, using data from multiple sources to generate reports and insights.
- Developed strong analytical and problem-solving skills to identify trends and patterns in data, facilitating informed decisions.

Environment: Purchasing, MySQL, Power BI, P2P, O2C, SAP ERP, MS Office

Global Procurement Associate (Contract)

NNT DATA, India

June 2021 - July 2023

Responsibilities:

- Managed vendors across North America (NA), Latin America (LA), Asia Pacific (APAC), and Europe within two company clusters.
- Received daily work assignments via ticket-based requests, actively participated in daily meetings with the manager to prioritize tasks, ensuring timely and efficient vendor management.
- Oversaw vendor operations within the SAP S4 HANA system, including vendor creation, updates, deletions, and blocking/unblocking based on specific requests, contributing to data accuracy and integrity.
- Implemented a rigorous vendor creation process with region-specific requirements, meticulously collecting essential documents (bank records, letterheads, plant information, contact details, tax documentation).
- Processed various vendor update requests, addressing changes to bank documents, addresses, phone numbers, and contact information, ensuring compliance with unique requirements.
- Maintained detailed trackers for various request types to ensure accurate and up-to-date information, enhancing transparency and accountability.
- Generated weekly, monthly, and quarterly reports related to vendor management, facilitating data-driven decision-making, and enhancing overall procurement efficiency.
- Managed vendor information, including monthly updated quotes, legal documentation, and contact details, within the ERP system Priority, ensuring comprehensive vendor data.
- Regularly evaluated supplier performance, addressed issues, and implemented enhancements, leading to a 15% reduction in vendor-related errors, increased efficiency, and cost reduction.
- Developed and maintained comprehensive documentation and process notes to facilitate knowledge transfer and streamline training processes.
- Collaborated with other departments, such as finance and operations, to align procurement activities with overall business goals, resulting in improved cross-functional communication and increased organizational efficiency.

Environment: SAP S4 HANA SRM, MS Office

EDUCATION:

Bachelor – Computer Science, JNTUK, Mylavaram.

Master's – Data Science from University of Memphis.
