EXPERIENCE

Dental Assistant & Business assistant | Aspen Dental Clinic | Ashland, Kentucky | June 2025 – Present

- Managed and updated patient data in EPMS and Dentrix EHR with 98% accuracy, supporting reliable reporting across 500+ monthly cases.
- Collected and organized appointment, insurance, and treatment data, enabling analysis of visit trends and procedure frequencies.
- Collaborated with staff to standardize documentation, ensuring consistency for data extraction and quality reporting.
- Tracked clinic performance metrics using EPMS and Dentrix dashboards, analyzing patient flow, new visit volume, and staff productivity data for 30+ daily appointments.

Data analyst Intern | Marshall Health Network | Huntington, WV | January 2025 – August 2025

- Retrieved, validated, and managed patient records in Cerner EHR with 98% accuracy, ensuring data quality for reporting and analysis.
- Conducted data audits for Project Unify & Greenway Validation, reducing documentation errors by 15% and strengthening reporting integrity.
- Developed and optimized SQL queries to extract, transform, and analyze patient data, supporting operational and compliance reporting.
- Performed trend analysis on record-processing times and error rates, providing insights that improved workflow efficiency and decision-making.

Graduate Research Assistant | Marshall University | HUNTINGTON, WV | April 2024 – August 2025

- Analyzed 10,000+ census and tax records to measure the impact of New Market Tax Credits (NMTC) on healthcare access in rural Appalachia.
- Utilized SQL, Excel, and statistical models to perform feature extraction, develop metrics, and segment populations, driving 3 targeted recommendations for healthcare investments.
- Partnered with NMTC professionals to integrate community-level datasets, improving alignment between healthcare needs and economic development initiatives by 15%.

Clinical Documentation Specialist | Government Dental College & Hospital | India | April 2022 – April 2023

- Analyzed 5,000+ patient records to identify trends in patient flow, appointment efficiency, and enhanced operational workflows, and boosted patient service efficiency by 25%.
- Validated and preprocessed EHR data, improving documentation accuracy by 15% and ensuring compliance with HIPAA and regulatory standards.
- Conducted weekly quality checks on clinical charts and digitized 3,000+ records, achieving 100% retrieval accuracy for audits and research reviews.
- Identified disease patterns from longitudinal patient data, supporting early detection initiatives and evidence-based treatment planning.

SKILLS

Technical & Analytical Skills

SQL, SAS, Python, Tableau, Power BI, Excel, Azure, Oracle, Data Management, Data Validation, EHR/EMR Systems (Cerner), Data Cleaning, Data Extraction, Trend Analysis, KPI Dashboards, Data Visualization, Statistical Interpretation

Professional Skills

Problem Solving, Critical Thinking, Attention to Detail, Healthcare Knowledge (Medical Terminology, ICD-10, CPT, Claims Data, Clinical KPIs, Quality Metrics/HEDIS)

PROJECT

Emergency Room Analytics Dashboard (SQL + Tableau) | May 2025 – May 2025

- Developed an interactive dashboard utilizing SQL and Tableau to visualize key emergency department metrics, empowering data-driven decisions for workflow enhancement and clinical optimization.

Data Validation for Greenway Lab Reports (Excel) | March 2025 – April 2025

- Resolved 100% of identified data discrepancies in post-EHR migration Greenway lab reports, leveraging Excel functions and data validation tools to enhance laboratory documentation compliance across 500+ records.

OPD Management System (MySQL + Power BI) | January 2024 – April 2024

- Built a relational database and dashboard to manage outpatient appointments and operational metrics, optimizing clinic resource allocation.

EDUCATION

Master's in Health Informatics | Marshall University | Huntington, WV | 2025 | 3.9

CERTIFICATIONS

HIPAA Compliance, Healthcare Information and Management Systems Society (HIMSS), Power BI, Tableau, SQL
