

Phaninder Reddy Konni

Data Engineer

phaninderkonni@gmail.com +1 (940) 843-1435 | [LinkedIn](#)

PROFESSIONAL SUMMARY:

Data Engineer with **3+ years of experience** in designing, building, and optimizing **Big Data and Cloud-based solutions**. Skilled in **Hadoop/Spark ecosystem, ETL/ELT workflows, Cloud platforms (AWS, Azure, GCP), and Data Modeling**. Proficient in **Python, SQL, and PySpark**, with a proven track record of delivering **scalable, high-performing data platforms** that support analytics, reporting, and ML workloads.

TECHNICAL SKILLS:

Cloud Environment	Amazon Web Services (AWS), Azure, Google Cloud Platform (GCP)
Platforms	C, C++, Java/J2EE, Go Lang
Scripting	Shell, Python, Power Shell, YAML, Groovy, Bash, Rust
Web Technologies/Frameworks	HTML, JSP, JSTL, JavaScript, CSS, Servlets
Version Control Tools	SVN (Subversion), GIT, GitLab, GitHub, Bitbucket
Build Tools	Ant, Maven
Configuration Management	Chef, Puppet, Ansible, Terraform
Continuous Integration Tools	Jenkins, UDeploy
containerization Tools:	Docker, Docker Swarm, Kubernetes, AWS ECS, OpenShift
Monitoring Tools	Nagios, Splunk, Cloud Watch, ELK Stack
Methodologies	Agile, Scrum, Waterfall
Operating Systems	Unix/Linux (Red Hat, CentOS, SUSE), Ubuntu, Windows.
Databases	Oracle, MS SQL Server, MySQL, Dynamo DB, Mongo DB, NoSQL, PostgreSQL
Virtualization	Virtual Box, VMWare
Ticketing Tools	JIRA and Confluence

WORK EXPERIENCE:

Lowes, Charlotte, NC
Data Engineer

Jan 2025– Present

Responsibilities:

- Built and optimized **ETL pipelines using PySpark & Databricks** for data extraction, cleansing, and aggregation.
- Designed **data lake and warehouse solutions** on AWS (S3, Glue, Redshift, EMR) and integrated external APIs.
- Automated workflows using **Control-M** and dbt, enabling **incremental materialized views**.
- Developed REST APIs (Flask) for **feature extraction and forecasting algorithms**; optimized query performance using **Redis cache**.
- Designed interactive **Power BI dashboards** and performed analytics using Spark APIs & Pandas.
- Implemented scalable **microservices** and improved cluster performance with **Scala optimizations**.
- Migrated and validated datasets from **SQL Server to Snowflake**, ensuring **data integrity and quality**.
- Partnered with ML teams for **feature engineering and production deployments**.

Environment: AWS (S3, EMR, Glue, Redshift, Lambda, API Gateway, CloudWatch), PySpark, Databricks, Flask, dbt, Snowflake, Control-M, Dremio, Power BI

Monocept, Hyderabad, India
Data Analyst

Jan 2022 –Dec 2023

Responsibilities:

- Designed and developed **ETL workflows in Azure Data Factory** for structured and unstructured data.
- Leveraged **Azure Databricks (PySpark)** for preprocessing and integrating with ML models.
- Built **real-time streaming pipelines** using Azure Stream Analytics for IoT data.
- Created **Power BI dashboards and SSRS reports** to track KPIs and business metrics.
- Developed **complex SQL queries, stored procedures, and CTEs** to support analytics and reporting.
- Conducted **EDA, statistical analysis, and visualization** to identify patterns and insights.
- Collaborated with stakeholders to translate business requirements into **data-driven solutions**.

Environment: Azure Data Factory, Azure Blob/Data Lake, Databricks, SQL, Power BI, Tableau, SSRS, SSAS, SSIS, Python.

EDUCATION:

- Bachelors in Electronics and communication engineering at TKR College of Engineering and Technology, India.
- Master's in advanced data analytics at University of North Texas.

CERTIFICATIONS:

- **Data Analysis with Python** – Cognitive Class (IBM), *Issued Jul 2025*
- **GenAI Powered Data Analytics Job Simulation** – Forage, *Issued Jul 2025*
- **Data Visualization: Empowering Business with Effective Insights** – Forage, *Issued Aug 2022*
- **Software Engineering Virtual Program** – JPMorgan Chase & Co. (Forage), *Issued Jul 2022*
