LEADERSHIP, MANAGEMENT AND DATA EXPERIENCE

Business Systems Analyst · Thrivent · Remote/Appleton, WI · November 2022-May 2025

- Led Agile development efforts including backlog grooming, sprint planning, and user story creation for product roadmap execution.
- Analyzed complex datasets using SQL and VBA, producing insights that drove cross-functional business decisions.
- Collaborated with stakeholders to define and translate business requirements into functional specifications.
- Developed SOPs that improved operational efficiency across departments by 20%.
- Acted as Salesforce B2B Data Steward, conducting regular audits and updates to maintain data integrity.

Accounting Analyst · VF Corporation · Appleton, WI · March 2022-November 2022

- Capitalized and tracked fixed asset depreciation for large-scale financial projects.
- Created and automated Pivot Table reports to extract and analyze data from SAP.
- Developed Power BI dashboards to optimize reporting processes, reducing manual reporting time by 40%.
- Led month-end close procedures and delivered reports to brand financial teams for strategic planning.

General Manager · Motel 6 · Oshkosh, WI · June 2016-March 2022

- Managed a team of 3–4 employees, improving guest satisfaction ratings through process enhancements and training.
- Conducted revenue forecasting and budget planning using historical and market data.
- Performed night audits and generated daily financial reports using Excel and pivot tables.
- Helped track budgets and expenses for renovation projects.

Data Analytics/ SAP Intern · Menasha Packaging · Menasha, WI · May 2021-September 2021

- Collaborated with finance teams to test SAP SAC visualizations and developed manuals for end users.
- Ensured data consistency across multiple systems, aligning master data with core business processes.
- Designed training materials and SOPs to support SAP rollout and onboarding.

Accounts Payable Intern · 4imprint, Inc. · Oshkosh, WI · April 2017- May 2019

- Complete and verify vendor supplier forms
- Contact customers about payment and invoice requests
- Create invoices for orders and verify that debit and credits are accurate on account
- Process invoices from vendors and verify accuracy on credit memos from customers
