Profile

Self-taught full-stack web developer with a solid foundation in both frontend and backend technologies including HTML, CSS, JavaScript, Node.js, Express, and MongoDB. Passionate about building interactive, user-centered applications and writing clean, maintainable code. Detail-oriented, quick to learn, and committed to continuous growth through hands-on projects and certification.

Skills

Frontend: HTML, CSS, JavaScript, DOM Manipulation

Backend: Node.js, Express.js, MongoDB, REST APIs, JWT

Tools: Git, GitHub, Postman, npm

Other: Phaser.js (2D game framework), Responsive Design, LocalStorage

Projects

The Bewitching Bazaar – Magic-Themed E-Commerce Site

HTML, CSS, JavaScript, Node.js, Express, MongoDB, JWT, Phaser.js

- Built a fully original and functional, witchy-themed e-commerce site with JWT-based authentication and protected product pages.
- Developed a Phaser-based spell-casting game integrated into the platform.
- Created dynamic product filtering and a spell brewing system with user interactions.

Practice & Guided Projects

Completed 30 frontend and 5 backend projects and 5 full-stack projects from structured online courses and tutorials that reinforced my full-stack skills and best practices.

Examples:

- Store API – Node.js, Express.js, MongoDB, HTML, CSS, JavaScript
- Task Manager – Node.js, Express.js, MongoDB, HTML, CSS, JavaScript
- Jobs API – Node.js, Express.js, MongoDB, HTML, CSS, JavaScript
- JWT Basics – Auth and token handling, Node.js, Express.js, HTML, CSS, JavaScript
- File Upload – Cloudinary, Node.js, Express.js, MongoDB, HTML, CSS, JavaScript

Education

Self-Taught Web Developer:

- Frontend: Learned HTML, CSS, and JavaScript via SuperSimpleDev.
- Backend: Learned Node.js, Express.js and MongoDB by completing freeCodeCamp's *Back End Development and APIs* certification course and additional freeCodeCamp YouTube tutorials.
- Phaser: Learned via YouTube tutorials and independent research.
- Applied concepts by building full-stack projects simulating real-world development.

Certifications

- **JavaScript Programming – SuperSimpleDev, 2024**

Certificate: <https://courses.supersimple.dev/certificates/5vsjobv7hi>

- **Back End Development and APIs – freeCodeCamp, 2025**

Certificate: <https://www.freecodecamp.org/certification/pjcodes/back-end-development-and-apis>
