PROFILE SUMMARY

- ⌚ Proactive self-starter with a can-do attitude, consistently taking the initiative to drive projects forward.
- ⌚ Effective collaborator experienced in bridging diverse teams with varying technical backgrounds, ensuring smooth communication and alignment between clients and the organization.
- ⌚ Proficient in utilizing a wide range of tools and technologies, including Python, SAS, SPSS, R, SQL, Qlik Sense, Sciforma, Alteryx, Peoplesoft, Jira, Orange, Tableau, Microsoft Office, RapidMiner, PowerBI, LucidChart, and adept in scientific writing.

WORK EXPERIENCE

Data Analyst

May 2023 – Present

Green Dot Corporation(Financial Services), Remote, USA

- ⌚ Developed Python automation scripts using Pandas, NumPy, and SQLAlchemy for daily time tracking and resource utilization analysis, resulting in a time savings of approximately 25 hours per week and enabling higher management to focus on strategic initiatives.
- ⌚ Coordinated with the data management team to seamlessly transition all data from Excel to SQL databases using SQLAlchemy and Pandas, ensuring efficient data migration and improved data accessibility.
- ⌚ Independently managed the data migration process from Excel to SQL databases, utilizing ETL (Extract, Transform, Load) procedures, data validation, and cleansing techniques to ensure data integrity and consistency throughout the transition.
- ⌚ Created Tableau dashboards by integrating data from multiple sources using data blending and calculated fields to visualize project performance metrics, resulting in improved resource allocation, cost analysis, and on-time project delivery.
- ⌚ Leverage SAS software to conduct advanced data analysis, generating insights that informed strategic decision-making and improved project outcomes.
- ⌚ Conducted performance tuning and optimization of SQL queries within Snowflake, resulting in significant reductions in query execution times and improved overall system efficiency.
- ⌚ Developed complex Excel models using advanced functions such as VLOOKUP, INDEX-MATCH, pivot tables and more to aggregate and analyze data for strategic decision-making, improving data accuracy and reporting efficiency.

Data Analyst

June 2022 – April 2023

American Express, Phoenix, Arizona

- ⌚ Investigated data through SQL queries using joins, quantitative analysis, python to provide solutions for cross- functional teams in data science, product and customer success and tuned the SQL queries for better performance and troubleshooting.
- ⌚ Mastered the ability to design and deploy rich Graphic visualizations with Drill Down and Drop-down menu option and parameterized using Tableau.
- ⌚ Delivered solution design document after studying requirements and worked on Excel, Tableau (to create dashboards) and on a day-to-day basis to analyze deliverable reports (including reports from CRM systems).
- ⌚ Resolved production issues utilizing IT service management tools like JIRA and ServiceNow.
- ⌚ Led a team of interns across multiple aspects of project and led discussions.

Graduate Assistant, Teaching

January 2022 – May 2022

Northwest Missouri State University, Maryville, Missouri

- ⌚ Designed assignment questions for the required coursework.
- ⌚ Supervised and assist a class of 45 students with learning several tools such as RapidMiner, Tableau, Microsoft Excel.
- ⌚ Graded and provided feedback for several assignments and exams.
- ⌚ Delivered lectures on using tools such as Tableau, RapidMiner and Microsoft Excel.
- ⌚ Strengthened public speaking skills and leadership skills by supervising students.

Business Intelligence Developer

February 2020 – July2021

Yes Bank, Mumbai, India

- ⌚ Analyzed the gaps and fetched insights from the collected data from cross-functional teams and stakeholders by writing SQL queries in MySQL.
- ⌚ Used Alteryx to create end to end data reporting pipeline and scheduled the pipeline using Alteryx server which reduced the manual intervention to 0%.
- ⌚ Automated a weekly job that automatically sends two reports via email every week at a particular time.

EDUCATION

Master of Science in Information Systems

December 2022

Northwest Missouri State University, Maryville, Missouri

GPA 3.95/ 4.0

Bachelor of Commerce in Finance and Business Analytics

November 2019

Deakin University, Melbourne, Australia
