PROFILE SUMMARY

Data Analyst with proven expertise in developing robust data pipelines and insightful dashboards using Python, SQL, and Tableau. Successfully automated processes and migrated data to improve efficiency and access, delivering measurable impact. Adept at translating business requirements into actionable insights, enhancing decision-making through compelling data visualization and storytelling. Experienced in cross-functional collaboration to drive strategic growth.

SKILLS

- **Programming Languages:** Python, SAS, SPSS, R
- **Database & Query Tools:** SQL
- **Data Visualization:** Tableau, PowerBI, Qlik Sense, LucidChart, Orange
- **Analytics Platforms:** Alteryx, RapidMiner
- **Project Management & Collaboration:** Sciforma, Jira, Peoplesoft
- **Administrative & Communication:** Microsoft Office, Scientific Writing

WORK EXPERIENCE

Green Dot Corporation (Financial Services)

May 2023 - Present

Data Analyst

Remote, USA

- Developed Python automation scripts using Pandas, NumPy, and SQLAlchemy to streamline daily time tracking and resource utilization analysis, saving approximately 25 hours per week and enabling higher management to focus on strategic initiatives.
- Coordinated with the data management team to transition data from Excel to SQL databases using SQLAlchemy and Pandas, enhancing data accessibility and laying the foundation for scalable reporting.
- Managed the data migration process from Excel to SQL databases with ETL procedures, data validation, and cleansing techniques, ensuring data integrity and consistency.
- Created dynamic Tableau dashboards by integrating data from multiple sources with data blending and calculated fields to visualize project performance metrics and inform resource allocation and cost analysis.
- Conducted advanced statistical analysis using SAS, generating insights to support strategic decision-making and improved project outcomes.
- Optimized SQL queries within Snowflake, significantly reducing query execution times and boosting overall system efficiency.
- Designed complex Excel models employing advanced functions such as VLOOKUP, INDEX-MATCH, and pivot tables to consolidate and analyze data, thereby enhancing reporting accuracy and strategic planning.

American Express

Jun 2022 - Apr 2023

Data Analyst

Phoenix, Arizona

- Extracted and analyzed data through SQL queries and Python scripts, providing actionable insights to cross-functional teams in data science, product, and customer success while enhancing query performance.
- Engineered rich graphic visualizations in Tableau with drill-down and drop-down menus to facilitate data storytelling and comprehensive business insights.
- Documented solution designs after thorough requirement analysis and collaborated on creating Excel models and Tableau dashboards to deliver actionable reports from CRM systems.
- Addressed and resolved production issues using IT service management tools such as JIRA and ServiceNow, ensuring continuous operational excellence.
- Coordinated and led a team of interns, facilitating technical discussions and project management initiatives to align with strategic business goals.

Northwest Missouri State University

Jan 2022 - May 2022

Graduate Assistant, Teaching

Maryville, Missouri

- Designed assignment questions for the required coursework.
- Supervised and assist a class of 45 students with learning several tools such as RapidMiner, Tableau, Microsoft Excel.
- Graded and provided feedback for several assignments and exams.
- Delivered lectures on using tools such as Tableau, RapidMiner and Microsoft Excel.
- Strengthened public speaking skills and leadership skills by supervising students.

Yes Bank

Feb 2020 - Jul 2021

Business Intelligence Developer

Mumbai, India

- Analyzed the gaps and fetched insights from the collected data from cross-functional teams and stakeholders by writing SQL queries in MySQL.
- Used Alteryx to create end to end data reporting pipeline and scheduled the pipeline using Alteryx server which reduced the manual intervention to 0%.
- Automated a weekly job that automatically sends two reports via email every week at a particular time.

EDUCATION

Northwest Missouri State University <i>Master of Science, Information Systems</i> • GPA: 3.95 / 4.0	Dec 2022
Deakin University <i>Bachelor of Commerce, Finance and Business Analytics</i>	Nov 2019
