WORK EXPERIENCE

Software Developer

State of Tennessee, Nashville, Tennessee

May 2023 – Dec 2024

- Developed and maintained a healthcare application that exposed **REST APIs** for functionalities such as user healthcare claim management, demographic information retrieval, claims processing, and tax information, serving thousands of users.
- Designed and implemented microservices for healthcare systems, including **Member Management, Worker Management, and PDF Generation for User Confirmation**.
- **Integrated Microsoft Entra ID for authentication and authorization in a pdf generation microservice deployed on Azure**, ensuring secure access control and seamless identity federation.
- Utilized **ForgeRock Identity Management (IDM)** for **user provisioning and lifecycle management**, ensuring compliance with healthcare regulations.
- Used **Java Publisher-Subscriber pattern** to manage communication between different microservices.
- Conducted **end-to-end testing, integration testing, and**, authentication flows and Entra ID integration.
- Optimized SQL queries to significantly reduce database interaction times, improving overall system performance.
- Modularized codebase following Java best practices, making the application more scalable and maintainable.
- Implemented **token-based authentication using JWT**, ensuring secure access to sensitive healthcare data.
- Worked on Node Rest framework for backend services, used **DynamoDB** for DB services.
- Experienced in writing java API for **Amazon Lambda** to manage some of the AWS services.
- Extensively worked on **AWS dynamo DB storage, AWS lambda, Kinesis, SQS and SNS** for migrating existing micro services to AWS cloud

Software Developer

T-mobile, Bellevue, Washington

Mar 2022 - Apr 2023

- Developed microservices using the **Spring Boot framework**, JavaScript, and HTML, ensuring scalable backend services.
- Experienced in reviewing and working with code in JavaScript, Spring framework, and SQL.
- Integrated **JWT** for authentication and authorization in select microservices, enabling secure access control.
- Utilized Atlassian tools such as JIRA, Confluence, and Bitbucket for project management and collaboration.
- Wrote and maintained documentation to describe program development, coding, testing, changes, and corrections.
- Analyzed, managed, and coordinated new technology releases with the team, working closely with business partners to ensure timely and successful completion of releases.
- Implemented **JWT-based authentication in microservices** and access management, ensuring seamless, stateless session handling while reducing reliance on traditional session storage.
- Leveraged troubleshooting tools, including Splunk and MySQL, to diagnose and resolve issues, including identity-related access challenges.

Java Developer

Mitchell International, San Diego, California

Aug 2021 - Feb 2022

- Developed backend services using Java and Spring Boot to automate document classification and vehicle record association, improving processing efficiency by 20 percent.
- Designed and integrated RESTful APIs enabling seamless communication between microservices.
- Collaborated with cross-functional teams in an Agile environment to meet sprint goals with product requirements.
- Monitored and troubleshooted production systems using Jenkins and Splunk, minimizing downtime.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++.

Web Technologies: HTML5, CSS3, XML, JSON, JavaScript, TypeScript, ReactJS, Node.js, Bootstrap, Redux.

Tools and Frameworks: Spring, Spring Boot, **Entra ID**, Hibernate, Maven, Jenkins, Tomcat, SonarQube, Docker, Kubernetes, TCP/IP, Kafka, Selenium, Postman, JIRA, Git, CI/CD tools, Ansible, Linux, SDLC (Agile/Scrum), GitHub.

Databases: MySQL, MongoDB, Oracle, Firebase, RDBMS, NoSQL, SQL Server.

Cloud and DevOps: AWS (S3, EC2, SNS, DynamoDB, SQS), Azure, Docker, Kubernetes, Jenkins, Ansible.

EDUCATION

Western Illinois University

Masters in Computer Science

SR Engineering College

B.Tech. in Computer Science and Engineering

Illinois, USA

Aug 2019 - May 2021

Telangana, India

Jul 2015 - Jun 2019
